

7yds

### Concealed Draw

At 7 yards, stand facing target. From concealed draw, fire 2 rounds. 3 timed strings total.

Standard: 2 seconds, all in -0 zone.

Scoring: Add 1 second for any in the -1 zone, add 3 seconds for -3 zone.

Total Load: 6 rounds.

This drill focuses on drawing from concealment and “point” shooting, or reflexive/instinctive fire. It will be difficult to make time if you’re too focused on sight picture. Begin the trigger press as you present, take the “acceptable” sight picture, don’t wait for a perfect sight picture. This is also a good test of your holster choice and carry position. If you can’t make the time after several iterations, reconsider your carry holster and position options.
