## COMMERCIAL GRADE WASHERS & DRYERS

Considering a  
*Commercial-Grade*  
Washer/Dryer  
for your Group  
Home?

???

Here are **3** good  
reasons to go  
commercial:

### **REASON #1 Durability:**

Domestic models are rated for approx. 3,500 cycles; commercial models are rated for 15,000 cycles.

### **REASON #2 Cycle Time:**

Commercial washers have much faster cycle times, allowing you to get more laundry done in less time.

### **REASON #3 Warranty:**

Group Homes often have their domestic model washer's warranty VOIDED due the fact that these locations are considered "commercial" in nature. We offer the industry's BEST warranty, built for commercial environments: 3 month's labour and 5 & 7 year factory-specified parts.
