PRESS RELEASE

(Vancouver) - June 29, 2021 – The **Women CyberSecurity Society** is pleased to announce a partnership, as one of 28 leading tech organizations who are working with the **Canadian Chamber of Commerce (Canada)** on the **#CyberRightNow** initiative. Its purpose is to raise awareness, propose solutions to government to empower Canada to lead the global cybersecurity future, and position SMBs across Canada to increase their cybersecurity knowledge and defences.

The **Women CyberSecurity Society (WCS2)**[™] shares a common mission which is to develop the workforce, expand talent pipeline expansion and diversification within the cybersecurity industry. All of which adds tremendous value to the industry, brings new innovations and increases Canada's global competitiveness!
