Updated December 30, 2019

#1 – Membership Eligibility

Due to the lack of diversity and need for a more inclusive industry, the society's membership focuses on the needs of women and minorities interested in a career in cybersecurity. However, male advocates are welcome as long as they make meaningful contributions and respect members of the group at all times. Some events will be restricted to women only.

#2 - Be Kind and Courteous

We all share common goals and interests and the purpose of this organization is to create a welcoming and supportive environment. Let's treat everyone with respect. Healthy debates are natural, but kindness is required.

#3 - No Hate Speech or Bullying

Make sure everyone feels safe. Bullying of any kind isn't permitted, and degrading comments about things like race, religion, culture, sexual orientation, gender or identity will not be tolerated.

#4 - No Promotions or Spam

Maintain a spirit of giving and you will flourish in this group. Self-promotion, spam and irrelevant links aren't allowed. No solicitations allowed.

#5 - Respect Everyone's Privacy

Being part of this group requires mutual trust. Authentic, expressive discussions make groups great, but may also be sensitive and private. What's shared in the group should stay in the group.
