# Positive Discipline Policy

At Providence Montessori, we believe that guidance and compassion help children learn how to make respectful and responsible choices. Our goal is to support each child in developing self-awareness, problem-solving skills, and peaceful communication.

We approach discipline as a way to teach, not punish. When challenges arise, we help children understand the impact of their actions and encourage them to find positive ways to resolve conflict.

While we do not tolerate aggressive behavior, we understand that children are learning, and we are here to guide them through those moments with patience and care. If a child's behavior becomes unsafe, severely disruptive, or unmanageable, we will contact the parent/guardian promptly to partner in addressing the situation. In some cases, a child may need to be picked up early for everyone's safety and well-being.

We are committed to open, ongoing communication with families and will work together to support each child. In rare instances, if a child's behavior continues to pose a serious risk to themselves or others, Providence Montessori reserves the right to reconsider continued enrollment.
