MODULAR

ace

Meet Ace, our most popular collection. Enduraframe ensures each piece keeps up with the day-to-day, while flexible seating options let you mix, match, and create spaces that fit your style. From busy corners to quiet spots, Ace makes every layout feel effortless.

ace 2.0

Meet Ace 2.0, built for flexibility and style. Its clever back-to-back design lets seating flow on both sides, giving you endless options for collaboration or quiet corners. Mix curves, benches, and components to create layouts that fit your space perfectly. With overlapping back details for contrasting upholstery and Enduraframe construction, Ace 2.0 combines durability with effortless style.

box

Box is all about clean lines, flexible layouts, and effortless style. With multiple pieces to mix and match, it fits seamlessly against walls or shines as a centerpiece. Perfect for accommodating groups of any size, Box balances practicality with a striking look. Sleek metal legs allow you to gang pieces together, while Enduraframe construction keeps every configuration durable and reliable.

everlin

Meet Everlin, modular seating designed to bring structure and flexibility to your space. Each fully upholstered piece features subtle angles in the seat and back, while connecting seamlessly to form 90-degree layouts. The result is a cohesive, dynamic look that adapts as needs change. Backed by Enduraframe construction, Everlin is built for consistent, long-term use.

ion

Ion brings comfort and versatility together in a modular design that adapts to your space. Whether it's for focused work, quiet relaxation, or casual conversation, Ion helps create a personal nook wherever it's placed. With Enduraframe construction, every piece combines lasting durability with effortless style, making it as reliable as it is inviting.

ivy

Ivy brings modular seating to a new level of comfort and style. With a 36" or 42" high back for privacy and support, it helps create focused spaces while encouraging interaction when needed. Sleek metal legs blend seamlessly with the square base, making layouts simple to design and easy to adjust. Enduraframe construction ensures every piece stays durable and reliable, no matter how your space evolves.

kae

Kae brings ideas to life with tiered seating designed for collaboration. Its versatile shapes let you outfit an entire room, providing plenty of space for teams to work, brainstorm, and create together. With Enduraframe construction, every piece combines durability with effortless style so your layouts can evolve as quickly as your ideas.

korvela

Korvela brings curves, comfort, and versatility together in a modular collection that turns any space into a statement. Rounded shapes invite conversation and connection, while integrated table options make it as functional as it is striking. With Enduraframe construction, every piece is built to last, letting you mix, match, and design layouts that are uniquely yours.

LOUNGE

bea

Bea breaks the mold of traditional lounge seating with a bold design that sparks creativity and conversation. Each piece stands on its own, yet placing multiple Beas together lets you craft layouts that are entirely your own. Built with Enduraframe, Bea combines lasting durability with a striking, unconventional style that turns any space into something memorable.

gio

Gio swivels in style, bringing 360° of comfort and flair to any space. Compact yet confident, it works perfectly in tight corners or as a sleek accent in larger rooms. Built with Enduraframe, Gio delivers lasting durability while adding a touch of playful sophistication wherever it's placed.

ira

Ira puts a modern twist on the classic tub chair with gentle curves and subtle details. Its rounded base and sleek legs create an inviting look, while the generously sized seat offers comfort without taking up much space. Built with Enduraframe, Ira brings lasting durability and effortless style, making it a perfect accent for any room.

sol

Sol reimagines modular seating with extended arms that help create cozy nooks when pieces face each other. Available in one, two, and three-seat options, Sol brings both comfort and structure to lounges, waiting areas, and collaborative spaces. Enduraframe construction means Sol stands up to everyday use while keeping your space inviting and stylish.

Café

ter

Ter is seating, times three. Each section is designed to give users a personal space while still feeling part of the group. Crafted by Italian designer Ezio Pescatori and built with Enduraframe, Ter brings style, comfort, and durability to any lounge, lobby, or public area.

thk + thn
square

Designed by award-winning furniture designer David Dahl, Thk + Thn Square combines bold design with playful versatility. Thick square arms can double as extra seating or a convenient tabletop, and pieces can be paired or grouped to suit your space. Built with Enduraframe, Thk + Thn Square delivers lasting durability while making a striking statement in any environment.

thk + thn
waterfall

Designed by award-winning furniture designer David Dahl, Thk + Thn Waterfall combines bold design with graceful curves. Thick waterfall-style arms provide extra seating or a handy tabletop, and pieces can be arranged together to suit your space. Built with Enduraframe, Thk + Thn Waterfall delivers lasting durability while making a stylish, eye-catching statement in any environment.

Thk+Thn Tandem is a sleek extension of both Square and Waterfall series, offering enhanced comfort with thick arms between each seat in loveseat and sofa configurations for added personal space. Optional laminate tops on the middle arms provide convenient surfaces for working, reading, or relaxing.

tub

Tub combines soft curves with dependable comfort for a lounge piece that quietly shines. It fits effortlessly into any space, providing a touch of elegance without stealing the spotlight. Enduraframe construction ensures Tub stays stylish and reliable for years to come.

via

Via's cylindrical design brings a sleek, modern touch to any space. Comfortable and versatile, it supports quiet focus or casual collaboration for users of all ages. Enduraframe construction ensures Via combines lasting durability with timeless style.

cas

flo

BENCHES

cas

Cas brings a distinctive footprint shape to any space, making seating both functional and fun. Ideal for collaborating or relaxing, it adds a thoughtful finishing touch to lounges, lobbies, or public areas. With Enduraframe, Cas is built to last while keeping your space stylish and inviting.

flo

Flo turns modular seating into a natural experience. Each piece connects seamlessly with others to create flowing arrangements that bring life and comfort to any space. Inspired by nature and designed with Enduraframe, Flo offers durable, stylish seating that invites people to gather, relax, and enjoy every moment.

POUFS

koa

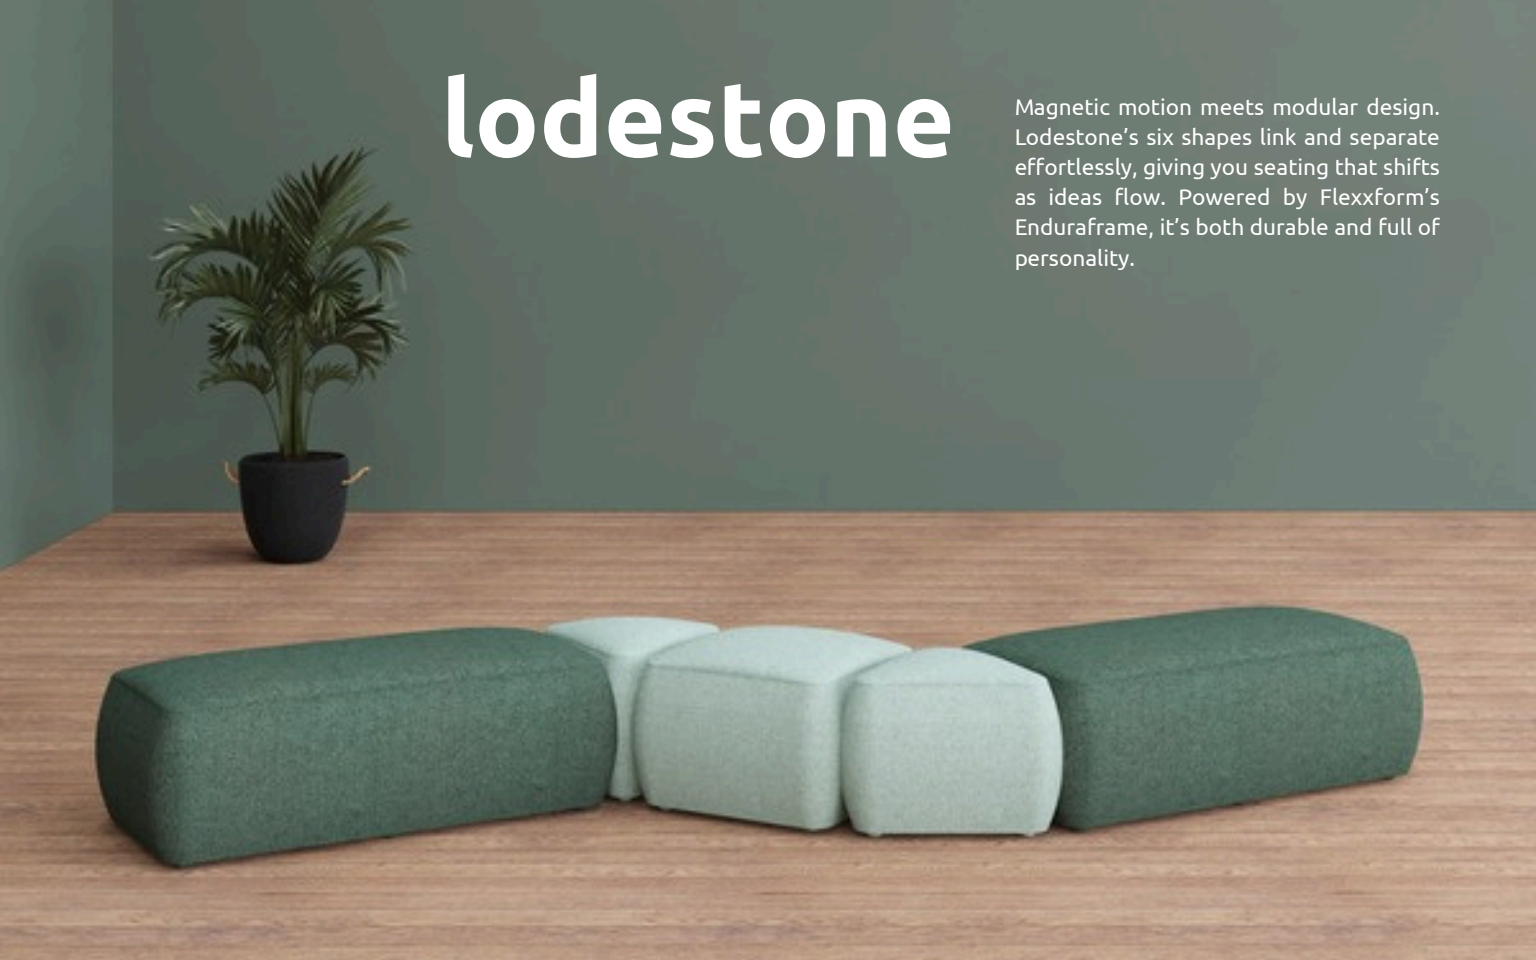

With its flowing, organic forms, Koa turns ordinary spaces into something extraordinary. Each piece is like a unique pebble in a landscape, creating a sense of individuality wherever it goes. Built with Flexxform's EnduraFrame for lasting performance in high-traffic environments, Koa blends bold design with durability, letting your space stand out without compromise.

lodestone

Magnetic motion meets modular design. Lodestone's six shapes link and separate effortlessly, giving you seating that shifts as ideas flow. Powered by Flexxform's Enduraframe, it's both durable and full of personality.

OCCASIONAL TABLES

ace

sky

Flexxform offers a variety of table sizes and shapes to suit any educational lounge area. These tables complement our soft seating and provide essential surfaces for magazines, coffee cups, laptops, and collaborative projects, supporting both individual and group activities.

inkster

Inkster's design sparks conversation before it holds a coffee. The upholstered cone base adds unexpected texture, while the round top offers a polished finish. It's proof that practicality and personality can coexist.

tas

tay

Designed with intention, Flexxform tables bring a modern presence to educational spaces. Scaled for everything from quiet study areas to collaborative settings, they balance visual simplicity with everyday practicality.

child size

Flexxform provides a range of lounge options for adults and multiple lines of child-sized seating. With a 14" seat height, many of our collections are available in both children's and adults' sizes, making them perfect for spaces where families or students and educators come together.

battery power

Combining a 240Wh li-ion battery and high power USB charging module TUF-HP in a neat, portable housing. Take your power with you (even outdoors) and keep your devices charged all day without having to find an outlet. The battery power comes with a multipurpose docking station which enables the battery to be neatly and securely located in any collection whilst being used for phone, tablet or laptop charging.

wireless + corded power

Make sure your devices stayed charged no matter where you are. The majority of the Flexxform collections offer multiple corded power options to fit your needs and/or design.

pillows

The Pillow Collection adds the perfect finishing touch to Flexxform seating. Designed to complement each soft seating collection, these commercial-grade pillows bring comfort, style, and a dash of personality to every lounge, lobby, or public space.

custom embroidery

Transform your soft seating into a unique and personalized experience with custom embroidery and contrasting stitching. Whether you're looking to showcase your brand's logo, add a touch of elegance, or create a memorable design, custom embroidery and contrasting stitching allows you to infuse your furniture with style and character.
