### April 6<sup>th</sup> — Musicians

John Bell, Dennis Starr & Mark Bowman

### April 20<sup>th</sup> — "What Happens When You Die?"

Maxine Pich, Metaphysical Counsellor

# Earth Day

## **CELEBRATE EARTH DAY, APRIL 22<sup>ND</sup> 2023**

This is the 53<sup>rd</sup> annual Earth Day where 6 million Canadians will join a billion people from 170 countries recognizing our home planet.

Earth Day provides an opportunity for all to honour and recognize the achievements of groups and individuals who help to protect the earth for future generations.

The Gaynor Family Regional Library supports the goals of Earth Day and try to do our part in acting in a responsible way, by providing quality materials that educate the readers on these critical issues.

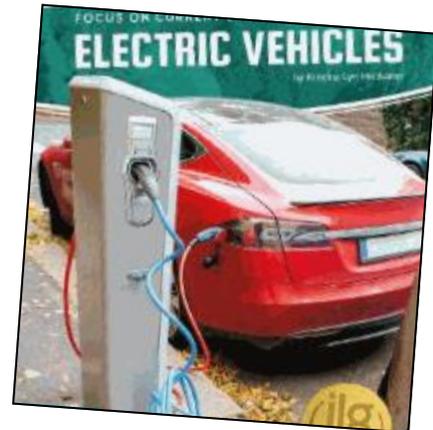

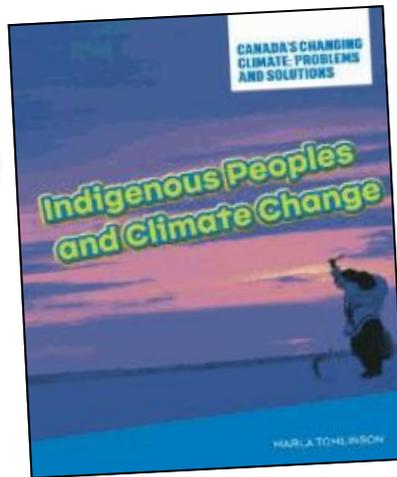

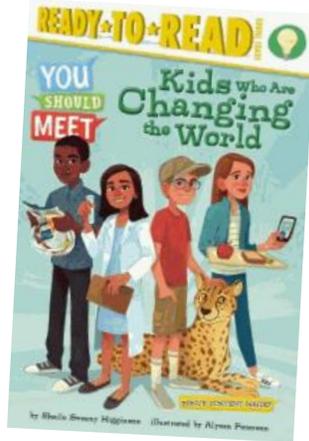

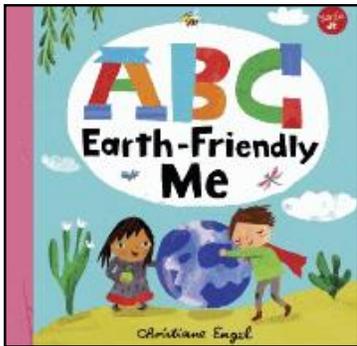

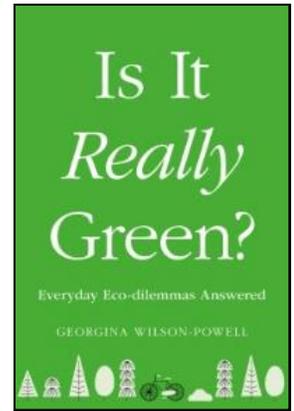

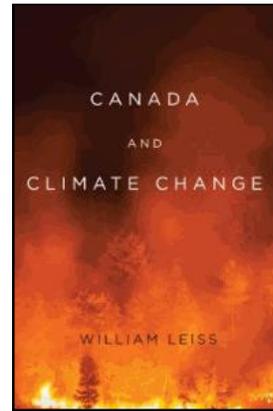

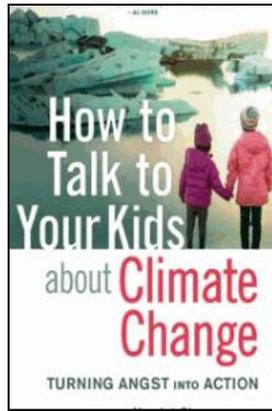

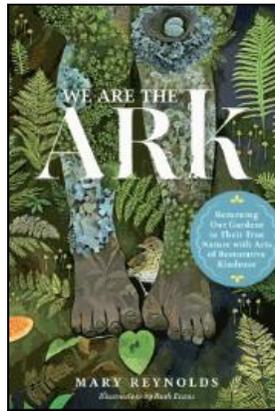

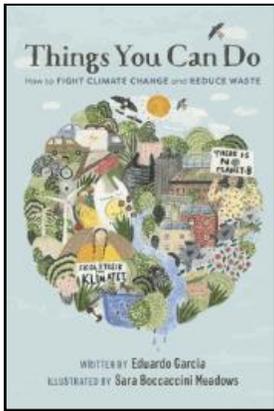

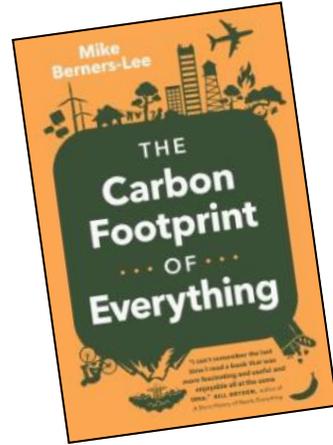

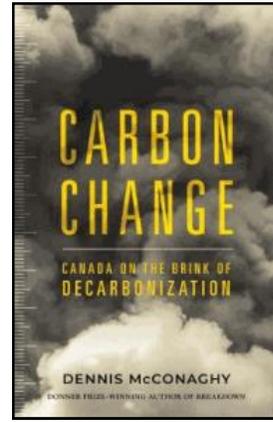

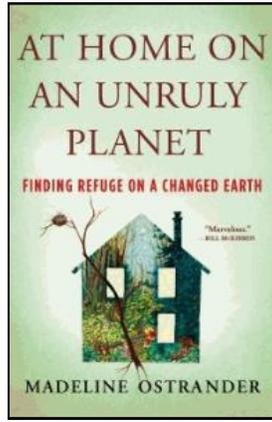

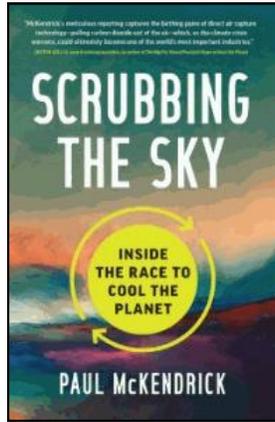

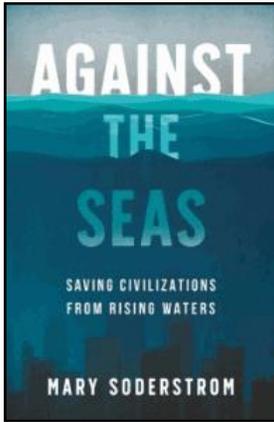

The library was designed to be green and was awarded three green globes for its focus on sustainability and environmental damage reduction, as well as being awarded the conservation award. There are numerous green features incorporated in the library, reusing materials, geothermal heating and cooling, efficient lighting, landscaping, the restored Urban Prairie to handle ground water as well as many other green designs and features.

In addition, The Mooring family created a fund at the Selkirk and District Community Foundation to purchase environmental materials on an ongoing basis. The library after over a decade and a half of support has created an environmental collection that is second to none in rural Manitoba.

So when you are doing your part on Earth Day to plant a tree, collecting garbage, riding a bike, reusing materials, consider borrowing a book from the Library and expand your knowledge of our unique blue sphere.
