What to bring:

Face-2-Face classes:

- Relatively Powerful Laptop with Network connection (must be hard-wired, not WIFI)
- Johnson Controls FX Workbench Pro 14.14 installed and licensed
- Administration Rights to the Laptop (so you can access services, firewall ports, IP settings, users, etc.)
- Microsoft Excel fully licensed on Laptop
- Please advise if you have any special dietary requirements.
- Parking is not provided. Please check with the venue for availability and costs.

Virtual Classes:

- Johnson Controls FX Workbench Pro 14.14 installed and licensed
- Administration Rights to the Laptop (so you can access services, firewall ports, IP settings, users, etc.)
- Microsoft Excel fully licensed on Laptop
- Microphone & speakers or headset & webcam.
- Additional second monitor or Tablet/iPad (optional)

Class Pre-requisites:

- Send your payment (Purchase Order, Credit Card, or Check) to Trueblue Controls LLC. Your class registration will not be confirmed until payment is received & accepted.

Why Trueblue Controls?

- We are Niagara 4 Basic and Advanced Certified
- Over 9 years' experience teaching the FX Workbench Pro on the Niagara 4 Platform
- We taught twenty Niagara 4 TCP Courses written and performed on the Johnson Controls Facility Explorer Platform
- We limit all our virtual classes to 10 students and face-2-face to 12 students to allow for the exceptional learning experience and providing the best student-to-trainer ratio.
- We are an engineering and training organization, specializing in technical disciplines and real-world applications.
- We are serving educational, commercial, IT, data center, retail, financial industries, among others.
- Our team is available to provide local and tailored customer support.
