Course description

Niagara 4 Extend Certification training course expands and enhances your knowledge of the most integrated system in the world.

- Designed for system integrators and engineers with experience and Niagara 4 TCP or Niagara 4 End User Proficient certification completed.
- The Intermediate Niagara 4 certification course after Niagara 4 TCP and prior to Niagara 4 Advanced TCP.
- The course is delivered over 5 days.
- All students are encouraged to work through series of labs designed to reinforce learning.
- All demonstrations are provided using real-life software environment.

The course ends with the practical project applying the knowledge of main Niagara concepts covered as part of the course; after passing the test, the attendee is awarded the Tridium Niagara 4 Extend Certified status. The certificate demonstrates the expertise to use Niagara 4 extended functionality.
