support us

The Foundation for Nuclear Studies is a 501(c)(3) nonprofit organization that promotes sound national policy on nuclear science and technology by providing information and educational opportunities for policymakers, their staff, and the general public.

CONGRESSIONAL BRIEFINGS

Our Congressional briefing series provides a forum for discussing the technical and practical issues associated with nuclear technologies.

DINNERS & DISCUSSIONS

Our 20-1 discussions are intimate gatherings with government and industry leaders sharing solutions and ideas for problems and opportunities facing nuclear energy.

EDUCATIONAL TRIPS

Our educational trips provide personalized tours of nuclear power plants and manufacturing and research facilities at home and around the world.

partner with us!

Please consider a financial contribution to the Foundation to help us sustain and grow our educational programs. Contributions are deductible as charitable contributions for federal income tax purposes to the fullest extent allowed by law.
