VIKING UAV

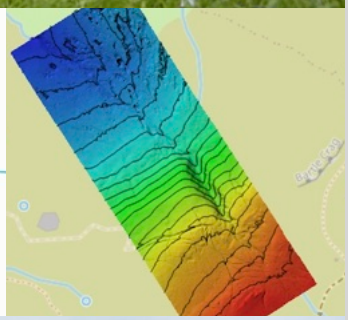

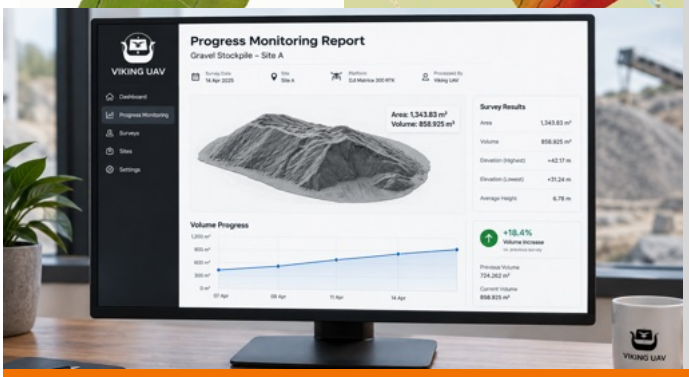

YOUR LOCAL DRONE SPECIALISTS

Viking UAV is your local drone partner. We offer high accuracy aerial survey work and consultancy services. Based in North Yorkshire, we serve clients across the UK.

OUR PRODUCTS & SERVICES

✓ **Point Clouds** - We capture ultra-accurate 3D datasets using industry-leading UAV technology, delivering the raw spatial data you need for design, analysis, and assessment.

✓ **Orthomosaics** - We stitch high resolution aerial images into seamless maps for visualisation, stakeholder communication, and detailed site documentation.

✓ **3D Models** - We deliver photorealistic 3D reconstructions - perfect for design context, site reconstruction, and detailed spatial understanding.

✓ **Elevation Models (DEMs)** - We provide accurate terrain and surface data essential for all your site planning and design needs.

✓ **Building & Structural Inspections** - We deliver safe, cost-effective monitoring solutions for difficult to access or hazardous areas - helping you evaluate your site quickly, with minimum downtime and without costly ground equipment.

✓ **Volumetrics & Progress Monitoring** - We conduct one off quantitative and bespoke repeat monitoring surveys, tracking precisely how your site changes over time.

✓ **Aerial Photography & Video** - We capture compelling visual content for documentation, marketing, to help bring your project to life.

✓ **Consultancy** - We can help you establish a UAV operation. We will navigate the regulatory challenges and implement effective solutions for your business.

WHY CHOOSE US?

✓ Operating a UAV is a regulatory headache - we handle all that for you.

✓ With 30 years aviation experience, you can rest assured that safety is second nature to us.

✓ We deliver accurate results through rigorous methodology, we'll listen to exactly what you need, and we'll back it with our satisfaction guarantee.

✓ Fully CAA Approved & Professionally Insured
