

MONARCH

CUSTOM PRINTED MARKERBOARDS

Whatever you envision, MONARCH brings to life with permanently infused graphic markerboards.

ABOUT MONARCH

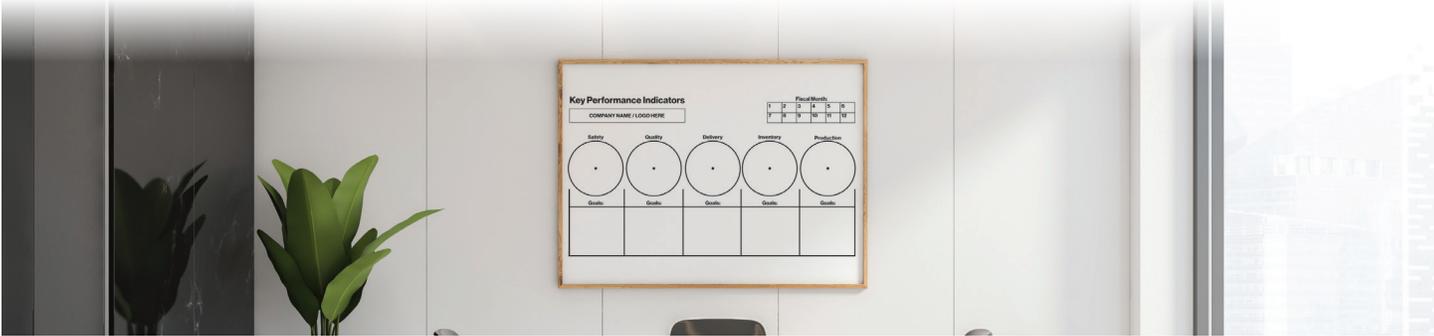

The Monarch custom printed marker board series utilizes a unique printing process which results in an elegant, vibrant, and durable writing surface. Unlike vinyl printed writing surfaces Monarch will not fade, peel, or tear. The images and designs generated in our printing process are of photograph-quality.

Whether it be a collaborative tool for the office, wall art for your home, or a useful piece for that new home office... Allow Monarch to bring your wall space to life!

Monarch has the capability of filling 48" x 96" of wall space with no seams or breaks in the image. Larger applications will require multiple panels and hairline-seamed joints.

This use is best recommended for collaborative open spaces. Monarch's capabilities reach far beyond your walls. Monarch can be incorporated into many different products (see back for details) to attract attention to your establishment.

Have a design in mind but don't have the necessary tools to create the digital image? Aarco can help! The Art Desk at Aarco will discuss your vision with you.

DESIGN PROCESS

Option 1

AARCO Design

- Provide Aarco with graphic or idea.
- Allow our specialized art department to customize and design your vision.
- Aarco will send a proof to you for approval then submit your design to production.

Option 2

Design it Yourself

- Provide Aarco with an .AI, .EPS, .TIFF, or .PDF file.
- File must be 300 dpi minimum for optimal clarity.
- Artwork must account for 1" margin on all four sides.

FRAME SELECTION & FITMENT

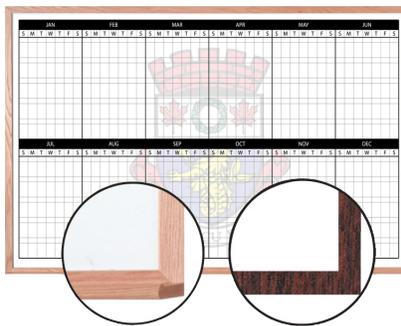

Frame Selections for Wall Hung Units. Custom Applications on Request.

SPECIFICATIONS OF INFUSED GRAPHICS

- Permanently infused graphics are directly embedded into the surface of the board.
- The base substrate of our product is steel, creating a magnetic writing surface.
- Monarch is wear and chemical resistant when used as directed.
- Monarch's Hi-Tech acrylic surface is superior when compared to vinyl laminated surfaces.
