DURHAM NATION

SATURDAY, NOVEMBER 5, 2022 | 5:30 PM | AT THE RANCH, KATHRYN, NORTH DAKOTA

Greetings and Welcome to the 12th Annual Durham Nation Sale!

Every year I start the letter with where we are and the extremes we face here on the Northern Plains. Today, and, 2022 for that matter, is no exception. As I write this, we are in a Red Flag Warning. After having gone from one of the wettest falls, snowiest winters, and again wettest springs on record, we entered a dry pattern around July 1 that now has us all praying for rain, again. One thing that has not changed, through all of this, is demand for Shorthorn cattle, and, furthermore, those from an environment that forces them to adapt to every and any pressure mother nature places upon them.

Along those lines, I'm confident the cattle on the forthcoming pages are prepared to work anywhere. It's why they continue to sell all over the lower 48, with our bulls being highly sought after abroad for their known utility and functionality. Additionally, the consignors behind these cattle are committed to your success. I haven't added up the years of business among the families, but, suffice it to say it's somewhere North of 200 years of raising Shorthorns. To that end, I think it's important to note it's not just the fact we have had them, but, that we are intently focused on making them better. That said, if you are seeking to improve maternal function, you have come to the right place. With over 200 live and genetic lots, Durham Nation 2022 represents the largest offering of Shorthorn and Shorthorn influenced genetics in the world.

We truly hope you are able to take time away from your busy schedules and be with us for this can't miss event. To better take care of you while here, we have added a shuttle service to and from the ranch, with various departure times from Valley City, ND. As always, we encourage you to make it a weekend, opening the gates to our cowherd, our land for upland game hunting, and, our headquarters as a place for fellowship. You'll see, as someone told me the other day, that sale barn at JSF is where the magic happens....where people from across the US and Canada have the opportunity to reconnect with old friends, meet new ones, share experiences, and witness the renewed interest for America's First.

Here's to you Shorthorn, for the 150 down and the 150 to go...

Durhams Forever!

TRUCKING

We will deliver Free of Charge in the Continental US & to Canadian Points of Entry.

This sale will be broadcast live on the internet.

GENERAL SALE INFORMATION

Flushing: All consignors retain a flush on all females selling from their program. The flush will be at our expense and the buyer's convenience with a guarantee of six grade one embryos.

Mailed Bids: Mailed or telephoned bids will be handled in a most confidential manner. If you are unable to attend the sale personally, simply contact a representative of the sale far enough in advance prior to sale day. They will be able to assist you at ringside on sale day.

Terms And Conditions: Terms of the sale are cash. Settlement is to be made with the clerk immediately following the sale and before cattle are removed from the premises.

Update On Breeding And Calving Information: There will be added information available at the sale site that will list any additions to the catalog information as to new calves born and new breeding information that will occur after the printing of this catalog.

Billed Accounts: All billed accounts are due within 10 days following the date of the sale. At 10 days, a two percent service charge will be added to the unpaid balance and an additional two percent will be added every 30 days thereafter unless previous arrangements have been made with the owners.

Liability: Each animal will be at the buyer's risk as soon as sold, but will be cared for by the sellers for a reasonable amount of time. Neither the owners, employees, auctioneer, sale manager or other affiliated personnel can be responsible for any accidents, but they will make every effort to provide for the safety and comfort of those attending.

Health: Each animal will be represented by a state approved health certificate for interstate shipment. Buyers should make themselves aware of the health requirements for their respective states. All cows tested negative for TB, BVD-PI3 and John's Disease. Cows vaccinated with Bovi-Shield Gold and wormed. Calves have had Bovi-Shield Gold, Vision-7 and Cydectin.

Insurance will be available at the settlement desk upon conclusion of the sale.

Announcements made from the auction block take precedence over all printed material in this catalog.

**ALL ANIMALS SELLING WILL BE GENETIC CONDITION
FREE UNLESS OTHERWISE NOTED.**

The Maude's have a long standing history here, all tracing back to J&H Maude A42. I will never forget seeing her for the first time in the summer of 1992 at Shorthorn Central in NE. She was the natural calf of the great J&H Maude P42 and sired by Byland Challenger. A42 was ahead of her time. Moderate, big ribbed, and good lookin...we didn't leave there without her. 30 years later, we lead off Durham Nation with 3 Maude's. Each poised and capable of building a program around.

I challenge any breeder, anywhere, to show me a wet, coming 14 year old cow, that looks better than 80W. Furthermore, my next ask would be for you to match her production. 80W is a full sib to JSF Jazz 34S, the bull that began the Proud Jazz craze. She is a bull maker, with sons roaming pastures in South Carolina for Randy Griffis and in South Dakota for Adam Kafka. Her 2022 born bull calf will lead off the Durham Nation 2023 JSF bull offering. The potential within the offering of this genetic lot is UNLIMITED.

FLUSH

SELLING ONE FLUSH TO KL GOLD ROSE

Selling the rights to one flush. 451 is currently averaging 8 embryos per flush. Flush to take place on or prior to 5-1-23. Buyer to pay all flush costs. Seller guarantees 6 transferrable embryos.

The highest revenue cow on the ranch. I lost track somewhere North of \$250K.

Now old enough to vote, she summered with all the cows, and, is safe in calf to Byland Cash 1R067. We didn't bring her home until we moved the cows to where she would've been forced to swim a shy ¼ mile in the south pastures. No doubt she could've done it, but, I wasn't taking the chance...that bull calf in her by Cash could be the next big deal from JSF.

When I think of the Patty line, I think of 4 words: Power in the blood. Each and every Patty has a particularly unique head with an ultra deep jaw and wide muzzle. They couple it with extreme rib shape and body, all the while being incredibly attractive. I think I just described 39K to a T, Preston's pick of the sale heifers! Don't discount 245K, just because she is next to a rockstar. Only an April baby, she, too, will be one everyone finds come sale day.

The Marigold Maria's continue to surface in pedigrees across the nation and these 2 have the ability to each write their own story. 53K is a RIP. Stout and attractive, she has a big top, wide hip, and wicked front. Her maternal half brother, JSF Blaze 181J is now working in MI for Brad Carpenter of Spring Creek Shorthorns. 200K reads really cool on paper...261D x Creole x Marigold Maria 974. Best part is, she's not just good on paper. Look her up sale day. If you need a cherry red heifer that's ready to go win a show, don't miss 200K.

I don't even know where to start....I guess first would be a most sincere Thank You to Dr. Bert Moore and Wes Limesand of North Dakota State University for allowing me the opportunity to continue the legacy of the "SU" cows in ND, only now just a bit further West and South of Fargo. Second, to Dr. Boyd Bien and the crew at Bovagen Reproductive Services for their flush work on what could be the most valuable cow in the Shorthorn breed today. It started with Palermo, who's value will be exponentially greater once people see his calves. Next, Manhattan, the ranch record setter that had some of the most esteemed cowmen in MT asking about "The Shorthorn Bull" just outside Billings last spring. Lastly for now, the one the breed may never have been more ready for, Springsteen 183K, aka "Bruce".

Bottomline, Greatness lives here and she goes by the name of ND Orange Blossom 26X3.

Extremely high quality lead blue heifers here. 26 is the chubbier, tankier one of the 2. 27 is a bit more sleek in her design and I think could be flat stealthy next summer in the Plus shows. Take your pick and go kick ass.

28

29

30

These half sisters represent pick of over 30 blue heifer calves. They are superior in their structure and are cut from the same cloth as their big blue sisters that have become of a fixture of Durham Nation, the only place in the continental US where you can come and find blue roan females in volume. Keep an eye on DV for updated pics and vids of these closer to sale time. You won't be disappointed!

This sale will be broadcast live on the internet.

DVAuction
Broadcasting Real-Time Auctions
Real time bidding & proxy bidding available.

GENERAL SALE INFORMATION

Flushing: All consignors retain a flush on all females selling from their program. The flush will be at our expense and the buyer's convenience with a guarantee of six grade one embryos.

Mailed Bids: Mailed or telephoned bids will be handled in a most confidential manner. If you are unable to attend the sale personally, simply contact a representative of the sale far enough in advance prior to sale day. They will be able to assist you at ringside on sale day.

Terms And Conditions: Terms of the sale are cash. Settlement is to be made with the clerk immediately following the sale and before cattle are removed from the premises.

Update On Breeding And Calving Information: There will be added information available at the sale site that will list any additions to the catalog information as to new calves born and new breeding information that will occur after the printing of this catalog.

Billed Accounts: All billed accounts are due within 10 days following the date of the sale. At 10 days, a two percent service charge will be added to the unpaid balance and an additional two percent will be added every 30 days thereafter unless previous arrangements have been made with the owners.

Liability: Each animal will be at the buyer's risk as soon as sold, but will be cared for by the sellers for a reasonable amount of time. Neither the owners, employees, auctioneer, sale manager or other affiliated personnel can be responsible for any accidents, but they will make every effort to provide for the safety and comfort of those attending.

Health: Each animal will be represented by a state approved health certificate for interstate shipment. Buyers should make themselves aware of the health requirements for their respective states. All cows tested negative for TB, BVD-P13 and John's Disease. Cows vaccinated with Bovi-Shield Gold and wormed. Calves have had Bovi-Shield Gold, Vision-7 and Cydectin.

Insurance will be available at the settlement desk upon conclusion of the sale.

Announcements made from the auction block take precedence over all printed material in this catalog.

We are thrilled to offer these three Catwalk daughters
 125J comes from one of our best cow families, we have sold numerous daughters from the Dee cow family in previous Durham Nation sales.
 144J is the daughter of a young Studer bred cow that is doing a great job for us.
 168J is from our Penny cow family, these genetics have produced a herd sire for us.
 168 has the lowest BEPD of the three and is Sandy's pet of the pen.

Bunch of roan beauty's here. Each bred slightly different either via pedigree or service sire. Take your pick and go make \$\$\$. It's bred heifers like these that I hear about 5-7 years down the road. Still going strong. Breeding back every year and bringing in a big calf in the process. Females like this are why demand exceeds supply for Shorthorn bulls.

The Wall Street's just flat produce and I'm betting this one will be no exception. Safe to Palermo makes her an ultra safe bet. I debated for a long time on whether or not to sell 250J. Her dam continues to go strong, and, her granddam didn't leave here till a year ago. Yah, she was P which made her 16. She also happened to be the dam of Compass, and, is known as the foundation Princess cow here. Dumbledore added some horsepower and in turn the mating to Range Officer should be about perfect. I won't be the least bit surprised if we hear about this cow down the road. Power in the blood.

SIMM INFLUENCED/COMMERCIALS

115

118

116

117

We always try to offer a handful of Commercial breeds on the sale with Shorthorn influence. These are sired by a Simmental bull and trace back to JSF dams granddams. These girls show the stout and powerful from their Simmi sire, with the eye appeal, balance, and softness our cattle bring to the table. This will be a much talked about pen of cattle sale day and proof of what a shot of Shorthorn can do!

The majority of these females are 3/8 Shorthorn 5/8 Angus and awfully good. Safe to Range Officer, this mating will yield awesome results. Their progeny will achieve greater than 50% blood level, making them qualify for most all majors and or ShorthornPlus shows. From there, mate them anyway you desire. We have great reports from our customers using Angus back on them, or, going the terminal route and using a HomoBlack PB Simmental bull to cover them. The steer deal, find your clubby sire and they'll work there, too.

Heifer Safe.

Uniquely bred bull here. Marquis 127X x Gold Rose 451. Breeders, if you are needing to fix issues, add growth, and, just get back to the mainline level the KL cows provided, buy this bull. Commercial customers, If you need a big, stout, red bull to infuse some Shorthorn back in a set of Red commercial cows to make females, buy this bull and keep every daughter. You people are smart and can figure it out on Nov. 5th!

Different twist here in this ET joint with PVSS. If you are seeking some eye appeal with a big foot, large testicles, and it a light roan, attractive package. Check this dude out. He has the ability to make some killer show heifers.

I really like this bull. His dam is a half sib to Ember and Central Park. Stout featured, big footed and nutted. He'll work anywhere.

Heifer Safe.

This dude is goood lookin...Preston and I were just admiring him the other day and talking about how he will turn heads sale day. Locked in calving ease and production, with the look of Battlefront. Line. Up.

Stout, rugged, heavy constructed pair of solid red Cowboy bulls here. Large scrotal on both. Each have pie plate feet. They are the kind that will add pounds and not sacrifice maternal quality. Study your lesson here.

Heifer Safe.

Yes, I saved the best for last. I love this bull. Always displaying the presence of a HERD SIRE, he owns the hill overlooking the banks of the Sheyenne where the bulls summered. Breeders, it's time to step up for a son of the crossover bull of our time, JSF Battlefront 129C. Why? I'm not sure I've raised a red, polled, bull that exudes more breed character and looks good doing it. I said what I said.
