THE STK GROUP, INC.

The STK Group Client Privacy Pledge

Some sites take your name and sell it to a list of agents. That is why a lot of owners never ask for help.

We don't work that way. We are advisors, not a lead service. Here is what we promise.

1. We never sell your information.

Your name, phone, and email are not for sale, not for trade, and not on anyone's list.

2. Your numbers stay with us.

Payroll, loss runs, and head count stay inside STK while we do the review. We look at your risks and your needs before we talk to any outside provider.

3. We share only what you ask us to.

- We send your information to the two or three providers that fit your industry and size. Never the whole market.
- Each one gets only what it needs to quote you.
- You know who we are talking to before we talk to them.

4. You never get a bill from us.

The provider you pick pays our fee. No hourly rate, no retainer. We make no money from your data, so we have no reason to pass it around.

5. If we can't help, we say so.

If what you have is already solid, we tell you. No pitch, no follow-up calls, no list.
