

TEN4.1 PARTS LIST

Team Associated

- A complete stealth transmission set for the rear. This can be a vintage or modern RERE but cannot be a FanRC case. See next page for AE part numbers. AE should have the transmissions sold as upgrade sets soon.
- A Complete 2.25 stealth differential (you can use AE or FanRC for our front end)
- [Stealth lube](#) and [black grease](#) to build the diff and axles

Wheels

- [Generic HSP/HPI/Exceed/WLTOYS](#) wheels seem to be perfect with our [#1020 12mm wheel adapters](#) in the rear.

Factory Works ([click to see the full parts list](#))

- [Caster Hat Bushings](#)
- [Clamping wheel hex 12mm](#)
- standard [Caster blocks](#) or [optional CNC aluminum caster blocks](#)
- [Steering knuckles](#)
- [Fiber Reinforced Belt](#)
- [Bellcrank set](#)
- [Steering link kit](#)
- CV Axle set for [CE/Team/Worlds](#) or [short arm](#)
- [Tensioner bracket and post](#)
- [Front transmission case](#)
- [Idler and pulley set \(2\)](#)
- [noseplate/bellcrank screws](#)
- [Rear bulkhead](#)
- [Bearing set](#) for front end (can also be sourced from Avid directly if you prefer)
- [Shock towers](#) (this is where you will spend most of your time deciding)

All of these parts are included in our conversion kit.

if using a V cut Worlds noseplate or FanRC graphite chassis you will also need the drill template [sold separately](#)

Tools

- 100° countersink (lots of choices- ebay, [amazon](#), [mcmaster](#) etc)
- a decent drill assortment will help a lot during the build

Also required:

A complete RC10 BUGGY roller as a donor car. THIS KIT WILL NOT FIT A RC10T or RC10DS!
