

DENTAL ONCOLOGY P R O F E S S I O N A L S

Thank you for visiting our office. We know you have a choice when choosing your healthcare provider and we are honored that you have chosen us. We look forward to being a part of your oncology care team. As discussed in your recent dental consult, we will work closely with your oncologists to prepare you for upcoming cancer treatment and/or address any complication or side effect you may experience during or after treatment procedures. Dental Oncology Professionals is dedicated to meeting the unique oral health care needs of individuals battling various forms of cancer at all stages. We have experience treating and managing oral side effects and complications that can arise as a result of chemotherapy, radiation therapy, and other immunosuppressive treatments such as bone marrow transplants, stem cell transplants, and immunotherapy.

Enclosed in this patient folder you will find information, resources and guidelines to help maximize the results of your oral health care treatment in our office. Please do not hesitate to contact us should you have additional questions or if there is anything we can do prior to your next visit with us.

We enjoyed meeting you and look forward to being a part of your cancer care team.

Sincerely,

Dental Oncology Professionals
Dr. Kim and staff
