## Behavior Assessment

First Responder Therapy Dogs work under unique circumstances. There are often loud noises, crowds of people, boisterous first responders, moving vehicles and strange equipment. We WANT your dog to be successful, so it's important to be sure that they are comfortable in different scenarios with a variety of triggers.

Take your dog to these three locations, walk around outside, and notice their behavior. Spend between 15-20 minutes in each location with at least two days between visits, so that your dog has time to decompress.
