

Eastern WA – Use Restricted Pesticides Wind Restrictions

Statewide WAC 16-230-640	Use restricted herbicides—Eastern Washington—Weather and temperature conditions. Use restricted herbicides shall not be applied on and after April 1 through October 31 of each year when there is a temperature inversion; or throughout the year if weather conditions are such that damage could result to adjacent and nearby towns, susceptible crops and plantings through physical drift or volatilization, or the temperature is 85°F. or above at the point of application: Provided, That application at the rate of fifty gallons or more per acre and conforming to the manufacturer's specified combination of nozzle type/size and pressure in pounds per square inch (psi) at the nozzle that produces a spray droplet size that falls within the very coarse (or larger) range as defined by the ASABE standards shall be exempt from the 85°F. temperature cutoff requirement: Provided further, That when using an invert system, applications may occur up to 95°F. with a maximum wind velocity of fifteen miles per hour and with water carrier at twelve or more gallons per acre.			
County & WAC	Area(s)	Restrictions		Exceptions
		Maximum Wind Speed	Pesticides	
Adams WAC 16-231-340	Areas 1 & 2	10 mph April 16 thru October 31	<ul style="list-style-type: none"> • Use-restricted herbicides 	N/A
		12 mph Nov 1 thru April 15		No wind restrictions when applying 50+ GPA with Very Course or larger droplet spectrum.
	Areas 3 & 4	12 mph year-around		No wind restrictions with ground rigs when applying 50+ GPA with Very Course or larger droplet spectrum.
Chelan & Douglas WAC 16-231-840	Areas 2,3 & 4	12 mph year-around	<ul style="list-style-type: none"> • Use restricted herbicides 	N/A
