How To Place Your Order With Us

Call 815-556-2685

We offer pick up and delivery within a 50 mile radius. \$50.00 total fee. No charge for orders over \$500.00)

You can ship your order to us and we will ship it back to you. (standard USPS/FedEx rates apply)

You can make an appointment to drop off and pick up at our offices.

(Due to COVID-19 rules in place, all “in person” meetings require us to request you wear a mask per State rules in place).

BEFORE PLACING YOUR ORDER

Some people don't really care about any order about their tapes however, if you do we recommend organizing your tapes prior to placing your order.

If you want your tapes in a certain order, simply number those tapes in the order you'd like them to appear on your DVD or files.

You may desire to have each tape on its own DVD.

You may not care too much about that. We can combine tapes to maximize space taken up on the DVD.

Let's say you have 10 VHS tapes to transfer, numbered in the order you wish to have them transferred. Before we begin the transfer, we'll run the tapes to get an idea of how many minutes of content are on each one of those tapes

BEFORE PLACING YOUR ORDER (CONT.)

If the total time of all three tapes came out to 119 minutes, we can fit those onto one DVD. Remember, a DVD holds two hours of analog content.

Since our rates for one tape to DVD is \$20.00 and any additional tapes added to a DVD are charged at \$5.00 each, the total cost for this DVD would be \$30.00.

If we didn't do it this way, it would cost you more money. 3 tapes at \$20.00 per DVD would cost you \$60.00.

We will always work with you to get the order combined in a way to save your money.

FINAL NOTES

CAN I PLAY THE FILES ON MY WINDOWS PC OR MAC?

In a word, yes. One thing we would suggest is you downloading the VLC Media Player. It's free for Windows or MAC. You can find it at videolan.org.

EXTERNAL HARD DRIVES/USB JUMP DRIVES

*Any order requiring an 'external' hard drive

To prevent any issues, the drive must be a new drive. We can provide a new drive as well as new USB drives at cost
