#### **ELECTION OF NEW OFFICERS**

By: Kenneth Laseter KI4AOH

It's not too late! If you would like to be on the board, now's the time to put your name on the ballot. Or, if you know someone you think would make a good director, just let Thomas Raggett <a href="kj4lmh@arrl.net">kj4lmh@arrl.net</a> or Rosalinda Melena <a href="wntwov@gmail.com">wntwov@gmail.com</a> know. There are only two basic requirements 1) you must be a club member, and 2) you must have attended at least six (6) club meetings during calendar 2013. Please be thinking about helping us fill all the board positions. We will discuss nominations at this month's club meeting. Remember, election of new officers will be held at our regular club meeting in November.

#### AMATEUR HARDWARE UPDATE

By: James Butler - KB4LJV

Many times when we run Morse code, the key or paddle wiring can get tangled up. I saw a Chinese key with a coiled cable hooked to the key. By picking up old torn up used microphones at Hamfests you can cut off and reuse the coiled cable for your Morse code key. The microphone cables have more than enough conductors for a key or paddle. It looks a lot neater than a few pieces of wire. I wired up my SPEEDX key with a coiled cable to give it a try. It is easier to move around and store. Save and recycle those old microphone cables for your keys and paddles.

#### AMATEUR PACKET UPDATE

By: James Butler - KB4LJV

Many of us will be looking at buying new radios in the future. The current trend is to do as much as possible with the radio using software. The Software Defined Radio (SDR) is the radio of the future. The ARRL has come out with a publication about Software Defined Radios on how they work and what they can do. This book is a good way to get acquainted with this n ew and exciting technology. The book is called The ABCs of Software Defined Radio and is at the ARRL bookstore for \$19.95. The website is <a href="http://www.arrl.org/shop/What -s-New">http://www.arrl.org/shop/What -s-New</a>

#### **CLASS INFORMATION**

#### Technician Class

If you are interested in the first amateur license class, Technician, please let us know by sending an email to wa4ovo@arrl.net with subject line "Technician Class" and give name, email address, and a contact phone number (preferably a cell number). Or you can go to the Delta Club webpage <a href="www.deltaclub.org">www.deltaclub.org</a> click on Training Classes; then click on Technician Class to send an email, or call at 901-628-4318. We usually publish class schedules a month or two in advance. You will be notified by email or phone when the class is set if you send an email informing us of your desire to be in a class.

There is no charge for the class, but registration is required. Advanced study of *The ARRL Ham Radio License Manual, product* #0977/ISBN 978-0-87259-097-7 (red-brick colored cover) is strongly suggested as well as study of the 396 questions and answer Technical Class License question pool. Barnes & Noble Booksellers may have this manual. You can purchase it online from <a href="www.msars.com">www.msars.com</a>, <a href="www.msars.com">www.arrl.org/catalog</a> or on Amazon.com. The list price is \$29.95 (which includes a CD). The older ARRL Ham Radio License Manual, Second Edition was priced at \$24.95, but did not have a CD.

The current Technician License question pool, which was approved by the NCVEC on February 1, 2010, can be seen at <a href="http://www.ncvec.org/page.php?id=356">http://www.ncvec.org/page.php?id=356</a>. Testing for this question pool started July 1, 2010.

Practice tests are highly recommended. The <a href="www.qrz.com">www.qrz.com</a> website is free. To access the sample tests, go to <a href="www.qrz.com">www.qrz.com</a>. From the QRZ home page click on RESOURCES in the blue band on the top right. Then click on 2010 Technician Exam Practice Test. When you start answering the questions, it will show you if you answered correctly or not with CORRECT! or SORRY BUT THAT ANSWER IS NOT CORRECT. Statistics are kept below the test question at This Quiz with the number of questions answered correctly and the percentage correct. Also shown is the number of questions answered correctly from the 396 questions of the question pool. It keeps track of your correct answers on subsequent tests. Below the This Quiz line is

Questions in This Test, that is a list of the 35 question numbers of the current test. If answered correctly, the question number radio button turns green. If answered incorrectly, it turns red.

There are a number of other free sample -test sites. The following are some other ham radio practice exam sites:

#### **Basic Electronics Class**

Basic Electronics is geared toward bridging the gap between the General and Extra Class licenses. There will not be a Basic Electronics class in the classroom anymore since there is so much on the internet. However, Alan Proffitt AE5RX has created a Google website for basic electronics for the Delta Club with useful links. Click on https://sites.google.com/site/darcelectronics/my -forms and then click on syllabus.docx at the bo ttom of the list. Alan, alan.proffitt@comcast.net, will Elmer anyone who would like help or refer them to another Elmer. One site inside this Google site is the US Navy Electricity and Electronics Test ing Site (NEETS). There are 24 modules with excellent information. If you want to go directly to it, go to http://jacquesricher.com/NEETS/.
