Pharmacy Printing Specialists

is a family owned business based in Sydney. We have over a decade's experience servicing a large number of pharmacies around Australia, successfully working with both pharmacy groups and independent pharmacies.

Pharmacy Printing Specialists can provide a one stop shop for all your pharmacy printing, stationery, packaging and compounding requirements.

Our mission is simple: Cut cost without compromise and speed up the turnaround time to offer unparalleled personal service, comprehensive range and quality.

Put simply, we promise to offer you:

Real Savings. Our Everyday Price Promise means you pay a minimum 10% less on what you pay for comparable products today, no matter how big or small the volume. With our extensive experience in pharmacy printing and packaging we can also offer you alternative strategies to minimise your costs in other ways. Should our price be higher than your current price for comparable products we guarantee to beat that price by 10%. In addition all our prices are inclusive of freight (regardless of where you are) and set-up costs. In short, we don't have any hidden charges.

Peace of Mind. Our ISO9001:2008 certified quality assurance process guarantees that our product will appear and perform to the highest standard. All our products come with a guarantee of quality and if for any reason you are not totally satisfied with our products, our follow-up process is simple and quick.

Speed & Dependability. Delivery lead times on all orders are short as we ensure that your orders arrive within 7-10 calendar days from the time of your order (first order may take a couple of days extra due to artwork design, setup and approval). Off the shelf products ship the same day if ordered before 3:00 pm for next day express delivery (subject to courier services in country and remote locations).

Comprehensive Range. We cater for all your printing needs with a one stop shop approach and you can be assured of consistency within the range of printed products throughout your business.

Ease of ordering. We are available between 8:00 am and 8:00 pm 7 days a week to take your order and of course you can email us your order anytime day or night for immediate action.

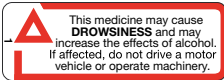

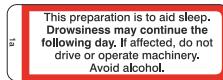

We are geared to exceed your expectations with all your requirements and have experience, capability and technical know-how to specifically design and manufacture any particular product you may require.
