

NOVEMBER 2022 UPDATE

A Message from Vogan

As you celebrate your Thanksgiving time in America, we would like for you to know that we - the Vogan Christian Academy faculty and staff - are so appreciative for your love, support, and prayers. We give God the glory and credit for everything going on here in Vogan but we know that you played a vital role in getting - and keeping - us at the level of success in ministry we are enjoying now. Students and their families are coming to know Jesus Christ and growing in that relationship as well. "Thank You" for being a living link for our ministries here in Togo.

Bruno Koumedjra and Staff

Vogan Christian Academy in Togo, Africa

THANK YOU for your partnership. These are the "fruits" of your generosity...

Our 2022-23 school year at Vogan Christian Academy (VCA) for our Kindergarten through 12th grade started this fall with 712 students. To God be the Glory! VCA once again ranked #1 in academic excellence in the southern two regions in the country of Vogan. Our staff and teachers work very hard to give our students the best Christian education possible.

One of the first things we do at the beginning of each school year is to hold a celebration for the graduating students from the 2021-22 school year. Because our students take their final exams in June each year, we have to hold our graduation ceremony till the fall when our students are back at school. The photo above is from our graduation ceremony.

Opening Day at our Vocational School

The 2022-23 year at Vogan Christian Vocational School has 80 students - way past our expectations. We maintained the 3 departments namely: civil engineering, electrical engineering and auto repair shop. I have a very good feeling for the vocational school as more and more youngsters from both Vogan, and mainly from far outside of Vogan, are interested in learning a trade after high school instead of going to college. This is amazing and we give all glory to God. The best is yet to come.

We hit the ground running this school year. As a way of letting the newcomers know that they are to take their training seriously, we took them to go help as we are building a house for one of our Evangelists. His name is Kossi, he is the one the couple at Pinedale help purchase the tricycle for, he works really hard with the tricycle, saved money and we finished with the foundation for his house today. What a learning opportunity this is for our students. Again this vocational thing is going places. And I like to thank you all to be a part in it.

Below is the architectural drawing of our proposed vocational school. Because of the great location of the land, we've placed the church right at the center of the school. Our prayer is that this will happen in the next 3-5 years as God continues to bless and lead.
