

# 3D APRON FEEDER CONTROL SYSTEM

- INCREASE PLANT FEED RATES
- REDUCE PRODUCT SPILLAGE AND CONVEYOR OVERLOAD

## Benefits

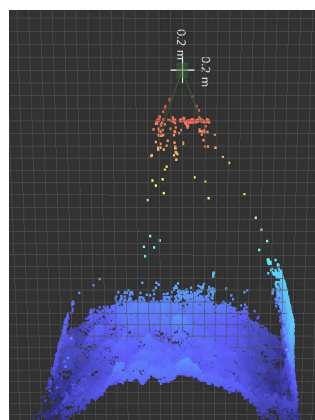

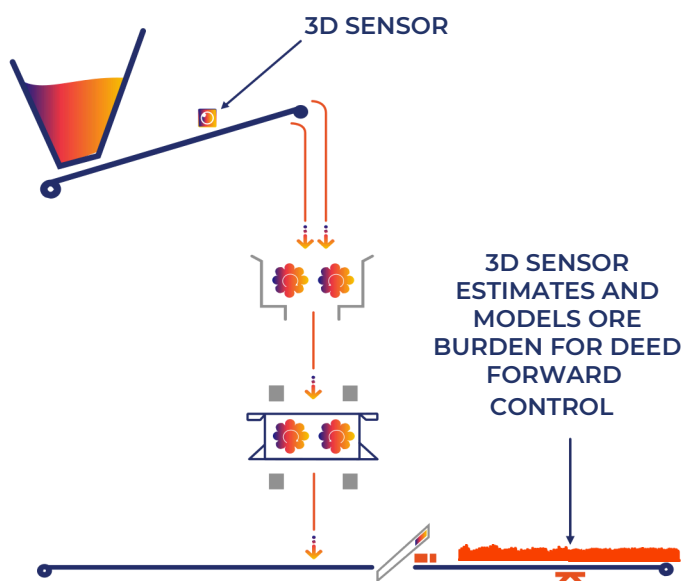

- Maximise transportation capacity
- Increase process efficiency and achieve higher plant throughput
- Minimise spillages and conveyor overload trip by 80%
- Reduce the likelihood of un-bogging event
- Achieve sustainable and consistent plant feed rate increment of +4%
- Increase production by up to 20kT per year

Simultaneous 3D vision at a fraction of 3D scanning cost
