

Company Overview

Diligent eSecurity International, Inc. (Diligent) provides enterprise level Information Assurance, Governance, Risk, Compliance and Cybersecurity solutions to accurately detect, contain and respond to cyber threats. We also provide cyberattack simulation exercises through our CyberRange, and online and on-site cybersecurity awareness training.

Mission

Our mission is to ensure all our clients remain confident that they purchased and implemented the right security solutions to protect their most critical information assets, at the most cost-effective price.
