## Division Profile

Our gardening & maintenance team is led by Billy, one of the owners who is passionate about supporting and mentoring the PWD community. We work closely with Support Coordinators and guardians to ensure critical feedback regarding our client's well-being, and their home environment gets to the right person.

All our staff have Federal Police, NDIS & WWC clearances and are trained in community service environments. We have a rigorous onboarding program and all staff are excellent communicators with a heart for service.

Upon request, our team can complete shift reports, highlighting any safety, mental health concerns, or maintenance repairs for each client.

**"Do all things with kindness"**

## Why Choose Us

- > We are an Australian family-owned and operated business.
- > The team lead is a qualified support worker and can effectively communicate with participants.
- > Our team understand the importance of consistency.
- > We genuinely care about supporting independent living.
