PETROL ENGINE OIL

ULTIMA LUBE Premium Petrol Engine Oil is formulated using high-quality base oils and advanced additive technology to deliver superior engine protection and performance. It ensures excellent lubrication, reduces engine wear, and maintains cleanliness by preventing sludge and deposit formation. Suitable for modern petrol engines, it enhances fuel efficiency and extends engine life under all driving conditions.

DIESEL ENGINE OIL

ULTIMA LUBE High-performance diesel engine oil formulated to deliver superior protection and efficiency for modern and heavy-duty diesel engines. Engineered with advanced additives, it helps reduce wear, prevent deposits, and maintain engine cleanliness under extreme operating conditions. Suitable for turbocharged and naturally aspirated engines, ensuring longer engine life and consistent performance.

GEAR OIL

ULTIMA LUBE Premium quality gear oil is formulated to provide reliable protection and smooth performance for gear systems under a wide range of operating conditions. It reduces wear, minimizes friction, and ensures efficient power transmission even under heavy loads. With excellent thermal stability and resistance to oxidation, it helps maintain consistent lubrication while protecting against rust and corrosion, extending the life of gears.

AUTOMATIC TRANSMISSION FLUID

ULTIMA LUBE High-quality automatic transmission fluid (ATF) formulated to ensure smooth and reliable transmission performance. It provides excellent friction control for seamless gear shifting, protects against wear, and maintains stability under high temperatures. Designed to extend transmission life while ensuring consistent operation in a wide range of driving conditions.

ANTI-FREEZE COOLANT

ULTIMA LUBE High-quality engine coolant formulated to provide effective temperature control and long-lasting engine protection. It prevents overheating in high temperatures and protects against freezing in cold conditions. Designed with advanced corrosion inhibitors, it safeguards the radiator and cooling system components while ensuring smooth engine performance.

CALCIUM GREASE

ULTIMA LUBE High-quality calcium grease designed to provide reliable lubrication and protection in wet and humid conditions. It offers excellent water resistance, strong adhesion to metal surfaces, and effective protection against rust and corrosion. Suitable for a wide range of automotive and industrial applications, ensuring smooth operation and extended equipment life.

About Us

ULTIMA LUBES is a dynamic and reliable brand specializing in high-performance lubricants and automotive fluids. We are committed to delivering superior quality products that enhance engine efficiency, extend equipment life, and ensure smooth operation under all conditions.

With a focus on innovation, quality, and customer satisfaction, ULTIMA LUBES has established itself as a trusted partner for automotive and industrial lubrication needs.
