

BRAVERY CONSTRUCTION

Capability Statement

CAGE: 8CGD4

DUNS: 117089291

Our team at Bravery Construction has over 70 years of combined experience in the construction industry. We are constantly learning and staying up to date with the latest construction techniques and technology.

Bravery Construction is a **Certified Native American (MBE)** and a **Certified Service-Disabled Veteran-Owned Small Business (SDVOSB)** General Contractor.

At Bravery Construction, we are committed to providing green and sustainable construction services to our clients wherever possible. **Bravery Construction** follows strict policies that maximize energy efficiencies for the building and reduce emissions.

We **specialize** in the following commercial building services:

- Commercial Roofing & Waterproofing
- Parking Lot/Garage Maintenance, Repair, & Striping
- Commercial & Industrial Flooring
- Solar Panels
- EV (Electric Vehicle) Charging Stations

Sustainability in commercial construction not only reduces environmental impact but can also provide long-term financial benefits through energy savings, reduced maintenance costs, and improved occupant comfort. Collaborate with **Bravery Construction** who has expertise in sustainable construction practices to make informed decisions that align with your business's sustainability goals.

Combining sustainable construction practices, solar panel roofs with EV charging stations is a powerful combination! It allows electric vehicle owners to charge their cars with clean sustainable energy. This energy contributes to reducing greenhouse gas emissions and moving towards a more sustainable and ecofriendly transportation and energy system.
