

WELCOME!!

We are so excited that you've come out tonight to share this special evening with us. Be confident that you are in for a treat as the students of Reflections School of Dance share with you their talents and the fruit of their hard work. If you happen to be a parent of one of these dancers, you have been truly blessed. These kids are exploding with love, personality, and potential. It has been my joy to experience that first hand this school year. Thanks for sharing your kids!

Tonight, you will receive a condensed and abstracted history lesson. Artistic license has been taken to fill in where actual record of dance history was not available. Before video, the process of passing along authentic dance forms would have been tricky, if not impossible. So we can only speculate what the dances may have looked like by considering the dress of the people and the culture of the day. Since art and dance tend to reflect the culture and times in which we live, what the dance looks like has been evolving and changing along with it's people. We hope to entertain tonight, and at the same time provoke thoughts of other times, other people, where we have come from, and what we might look forward to in the future. We look back to year 0, and in a fun way walk through doors of time to the year 2000, and Celebrate where we now stand (or Dance)

Miss Debbie
