

EVERTEX Advanced PVC Decking

Designed for Australians, Evertex is more durable, more affordable, and easier to install—bringing more enjoyment to your outdoor space every day!

Thanks to a proprietary manufacturing process and formulation.

Evertex outperforms wood, polypropylene, polyethylene, and other PVC products on the market.

Say goodbye to maintenance and sealing.

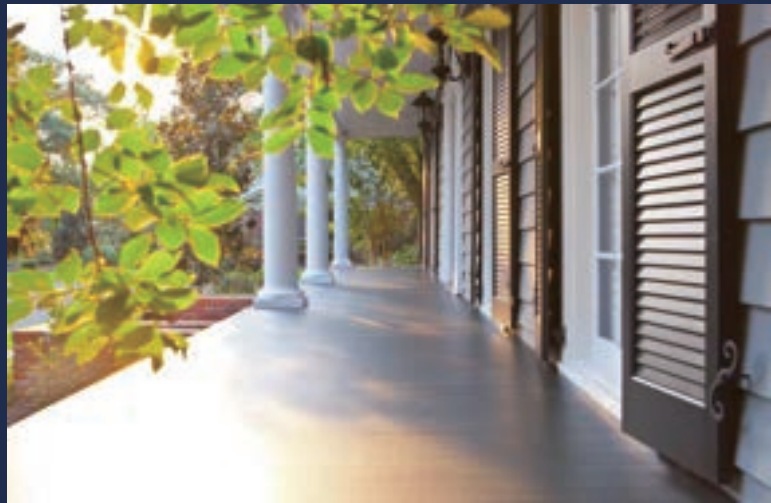

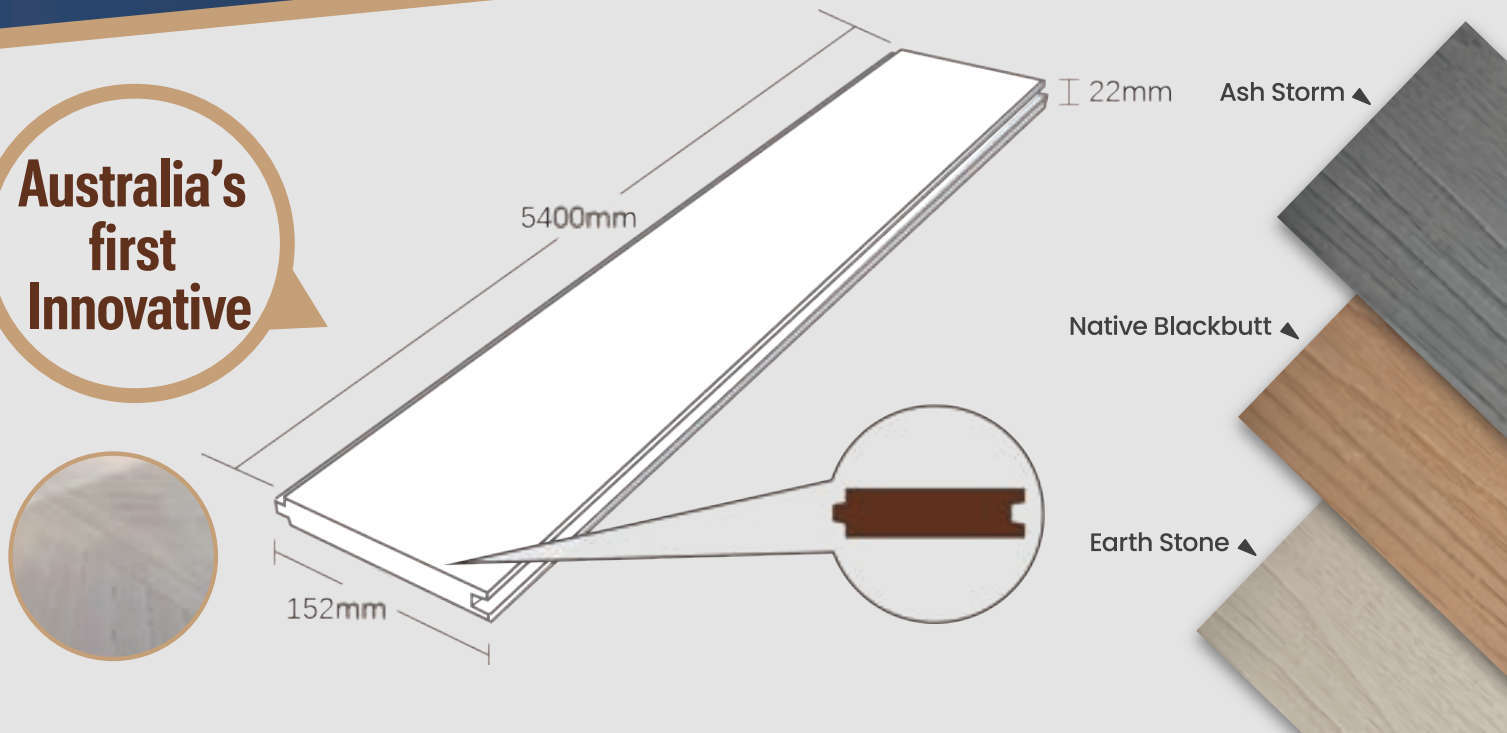

With natural timber aesthetics and modern decking solutions, Evertex offers styles to suit every Australian home, keeping your space ready for every season.

SUPERIOR CAPPING

Dual-layer ASA capping protects against intense UV rays and harsh weather, keeping colors rich and surfaces cool.

ENGINEERED CORE

A lightweight yet strong PVC core offers dimensional stability, algae resistance, and a slip-resistant surface.

LOW MAINTENANCE

No sanding or staining needed—just a simple clean keeps your deck looking pristine for years.

SUPER DURABILITY

Engineered to resist warping, rotting, pests, and moisture, ensuring a splinter-free, long-lasting deck.

BEST-IN-CLASS WARRANTY

With a 25-Year Limited Warranty, Evertex offers peace of mind and long-term assurance in every board.

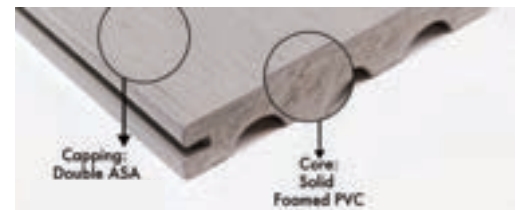

SAFETY

Certified BAL-AA29 for fire resistance, Evertex decking offers added security:

* Fire Retardants and UV Inhibitors – Withstand Australia’s extreme weather conditions, providing reliable protection.

HIGH PERFORMANCE

Evertex decking delivers exceptional durability and sustainability with high-quality virgin PVC.
