2026 CST SAPA LinkedIn post for China USA Collaboration

Xinrong Chen 10-23-2026

It was a pleasure working with so many wonderful speakers, participants, volunteers, and organizations to foster collaboration in non-clinical drug development and toxicology through two meetings (CST and SAPA-DC) held on the same day, October 18, 2026, across two countries—China and the USA! I was honored to contribute as a chair, speaker, and coordinator.

A heartfelt thank you to the **Chinese Society of Toxicology (CST,中国毒理学会), SAPA-DC (Sino-American Pharmaceutical Professionals Association-DC), 药未来 (media platform), Society of Toxicology (SOT)**, **AACT SOT, RSESS SOT**, **Drug Discovery Toxicology Specialty Section-Society of Toxicology (DDTSS-SOT), IVAMSS SOT, NCAC-SOT, RTC** for their tremendous support!

Special thanks to **Drs. Lawrence Yu, Ph.D., Nakissa Sadrieh, Ang Li, Lauren E. Black, Ping Wang, Patricia Ryan, Chunlin Chen** for generously sharing your expertise and insights.
