

Bringing the *PUPPER KIDS* to Belize !

Not only is RVBelize super pet-friendly, Belize is also very welcoming of pets and has a fairly streamlined process for importing them into the country.

Obtain a (1) BAHA pet import permit and (2) an internationally certified vet certificate and your pets are ready to cross the border! Arrive at the border with plenty of pet food and water as the pet inspection process can take some time.

Links to step-by-step instruction on the BAHA website and downloadable pet import forms can be found here:

It's Finally *RAINY* Season !

November to February is considered Belize's rainy season and it brings not only an abundance of precipitation, but also a drop in temperatures and humidity.

With lows in the upper 60s, highs around 80 and plenty of low-lying cloud cover, it's the perfect time to break out the hoodies and rain jackets.

At RVBelize, we've installed French drains throughout the elevated property to ensure the best possible drainage situation during this period. Between those and the palapa roofs, your home on wheels is guaranteed a tranquil stay.

Day Trip to *IVAN'S ISLAND* !

If the seas calm for a moment during rainy season, head to Ivan's Caye just 35 minutes from Placencia.

Ivan Jr. will pick you up from the MnM dock for a day of snorkeling, spear fishing, island lounging and delicious seafood! They have a cash bar and restaurant onsite as well as plenty of cool, shady lounge areas.

And during conch season, you can catch your own dinner in the many shallow island shoals.

Find them on FB at facebook.com/ivansisland98
