

Shipping from *WESTRAC* !

In a previous newsletter, we discussed international shipping and mail options to Belize. Today, we're going to talk shipping options within the country because that trip through Mexico likely took its toll on your vehicle and you may need to get your hands on some car parts!

Westrac is a great option for common vehicle parts and they have multiple locations across the country with Dangriga being the closest to RVBelize. If they do not have the part you need in stock, they can often obtain it in fairly short order.

They allow you to pay over the phone with credit card and, then, for around \$15-30 will ship the item directly to you via 'Speed-It' or 'Floralia Bus' – usually next day!

Visit *MAYFLOWER Bocawina* !

With over 7000 acres of preserved low and highlands, Mayflower Bocawina National Park is a great destination for adventurers of all ages with skill levels of moderate and above.

Four trails of varying length and difficulty lead to a number of streams and waterfalls including the famed 'Three Sisters Falls'. See birds, wildlife, flora and fauna of the Belize jungle up close and personal.

If you need more adventure, Bocawina Rainforest Resort offers ziplining, waterfall repelling and more!

PROPANE Tank Refills !

In Belize, we use LPG instead of propane for cooking and heating.

Liquefied Petroleum Gas is a mix of 70% propane and 30% butane which provides optimal efficacy and appropriate vapor pressure for residential gas cylinders. This mixture also adheres to Belize National Standards of pressurized gasses.

LPG delivery is available onsite at RVBelize Monday – Saturday 9am to 12pm with 24 hour notice. Simply let us know you would like a refill for your tanks and we will arrange for delivery!
