**Please Note:** The turnaround time to service most helmets is 3 weeks (21 days, excluding Sundays and holidays). Day one starts the day after we receive your helmet and payment. In addition, the time frame could be delayed if we incur any issues while servicing your helmet. You will be notified. All helmets are disassembled, cleaned and sanitized. All external stickers\decals are removed. Internal stickers are protected. There is an effort to save any external certification stickers, however there is never a guarantee. The helmet will be sanded if necessary. Lastly, the helmet is primed, painted, and dried. You will be contacted via text or email when your helmet is completed.
