

News Release

March 31, 2021

Published by: Rick MacSwain
Managing Director, Network Travel

I'm excited to announce that Network Travel has officially joined TL Network in Canada (TLN). TLN is one of the largest travel consortiums, representing approximately 6,800 travel agency locations in the United States and Canada. They also have locations in over 80 other countries globally.

Recognized as one of the most progressive industry leaders, TLN has award winning marketing, technology, and hundreds of preferred supplier partnerships with airlines, tour operators, transportation companies, hotels and resorts, travel insurance, sightseeing companies, cruise lines and more.

Our TLN membership will further enhance our business model focusing on groups and unique lifestyle experiences. Having access to luxury boutique operators around the world will be one of our key competitive strengths. Our clients are seeking memorable experiences, and this is especially important as boutique suppliers are typically exclusive and sometimes difficult to find and vet. TLN has carefully vetted and approved all their suppliers before adding them to their portfolio as "Preferred".

Network Travel is well positioned as a leader in the groups and lifestyle experience market.

Network Travel

- We physically live in Edmonton Alberta and support our provincial communities.
- We are locally owned, and we work within the business every day!
- Our team of specialists have been servicing customers for over 20 years.
- We are NOT a Call Centre, nor an online booking agency; we provide personalized service.
- We have No debt and No outstanding liabilities due to COVID.
