

CyberKrush

Secure Systems. Strengthen Missions.
KRUSH Cyber Risk.

CAPABILITY STATEMENT

CyberKrush delivers expert cybersecurity services that help federal contractors and government organizations protect sensitive information, achieve compliance, and strengthen their security posture.

COMPANY OVERVIEW

CyberKrush is a cybersecurity consulting firm dedicated to helping organizations secure their systems, safeguard sensitive data, and meet federal cybersecurity requirements.

We specialize in supporting Defense Industrial Base (DIB) and federal contractors with NIST CSF and ISO 27001 alignment, RMF, eMASS, and secure environment solutions, ensuring mission readiness and compliance.

CORPORATE DATA

-  CyberKrush, LLC
UEI: ULRUJJ5X9L33
CAGE Code: 9FM93
-  Gulf Breeze, FL 32563

CORE COMPETENCIES

- ✓ Cybersecurity Program Development
- ✓ Risk Management Framework (RMF)
- ✓ NIST CSF and ISO 27001 Alignment
- ✓ Secure Enclave / SCIF Support
- ✓ Incident Response & Security Monitoring
- ✓ Policy, SOP, & Documentation Development
- ✓ Security Awareness & Training
- ✓ Continuous Monitoring & POA&M Management
- ✓ eMASS & DoDA Compliance Support
- ✓ High-to-High / Cross Domain Solutions

CORE CAPABILITIES

CYBERSECURITY COMPLIANCE & ASSESSMENTS

Gap assessments, NIST CSF and ISO 27001 alignment, RMF implementation, and security control assessments to help organizations achieve and maintain compliance.

RMF & eMASS SUPPORT

Expert support for RMF (Prepare, Categorize, Select, Implement, Assess, Authorize, Monitor) and eMASS documentation, submission, and POA&M management.

SECURE ENVIRONMENTS & SCIF SUPPORT

Design, implementation, and assessment of secure enclaves and SCIF environments in alignment with ICD 705, NISPOM, and DoD requirements.

CYBERSECURITY PROGRAM MANAGEMENT

Development and management of cybersecurity programs, policies, procedures, SSPs, and Plans of Action & Milestones to support ongoing authorization and compliance.

SECURITY OPERATIONS & INCIDENT RESPONSE

Security monitoring strategy, incident response planning, vulnerability management, and threat mitigation to strengthen organizational resilience.

TRAINING & AWARENESS

Role-based cybersecurity training and security awareness programs to build a culture of security and reduce human risk across the organization.

PAST PERFORMANCE

CyberKrush has supported a variety of clients across the defense industrial base and private sector with cybersecurity program development, NIST CSF and ISO 27001 alignment, RMF implementation, and secure environment support.

We are committed to delivering high-quality, results-driven solutions that ensure compliance and protect mission-critical data.

DIFFERENTIATORS

MISSION FOCUSED

We understand the unique challenges of the DIB and federal missions.

COMPLIANCE EXPERTISE

Deep knowledge of DoD, IC, and federal cybersecurity requirements.

TAILORED SOLUTIONS

Custom solutions aligned to your organization's risk and mission needs.

RESPONSIVE PARTNER

Agile, reliable, and committed to your success.

Secure Systems.
Strengthen Missions.

CYBERKRUSH DIFFERENTIATORS

- Veteran-Owned Leadership
- RMF / eMASS Expertise
- Secure Environment & SCIF Support
- High-to-High Transfer Experience
- Mission-Focused Cybersecurity Operations
- ISSM / ISSO Advisory Support
- NIST CSF & ISO 27001 Alignment
- Rapid Documentation & Compliance Support

SELECTED PAST PERFORMANCE & ACCOMPLISHMENTS

DEFENSE & SECURE ENVIRONMENT SUPPORT

FRAMACO

- Guided organization through full RMF lifecycle and ATO preparation
- Developed SSPs, security documentation, and control implementation strategies
- Supported vulnerability assessments, remediation, and authorization activities
- Assisted organization in achieving a successful 2-Year Authorization to Operate (ATO)

Achieved 2-Year ATO

SKYWATER TECHNOLOGIES

- Supported secure system authorization efforts using RMF methodologies
- Assisted with access control implementation, incident response capabilities, and continuous monitoring
- Conducted vulnerability assessments and penetration testing support
- Successfully supported organization in obtaining a 2-Year Authorization to Operate (ATO)

Achieved 2-Year ATO

HAIGH FARR

- Performed security posture assessments and RMF implementation support
- Assisted with secure enclave architecture and system boundary protection
- Developed authorization documentation and risk mitigation strategies
- Supported successful achievement of a 3-Year ATO

Achieved 3-Year ATO

CRITICAL INFRASTRUCTURE & ISSM SUPPORT

BAE SYSTEMS

- Supported geospatial system security operations and RMF alignment
- Assisted with continuous monitoring and secure infrastructure oversight
- Managed compliance documentation and system security planning
- Oversaw environments containing:
 - 100+ networked workstations
 - Multiple servers and continuity systems

DRAPER LABORATORY

- Provided ISSM oversight supporting ballistic missile defense information systems
- Managed classified system security operations and compliance activities
- Conducted risk assessments, security policy development, and audit support
- Implemented cybersecurity awareness and continuous monitoring initiatives

AEROJET ROCKETDYNE

- Supported SIPRNet-focused RMF and cybersecurity operations
- Implemented multifactor authentication and intrusion detection controls
- Developed incident response and continuous monitoring capabilities
- Maintained alignment with DISA STIGs and NIST guidance

COMMERCIAL & STATE CYBERSECURITY INITIATIVES

STATE OF HAWAII – DBEDT

- Supported cybersecurity modernization efforts for 15 Hawaii small businesses
- Delivered comprehensive cybersecurity services including:

- Firewall Assessments
- Business Continuity Planning
- Incident Response Planning
- Vendor Risk Management
- Cyber Hygiene Assessments
- Security Awareness Training
