Spring is upon us, and it is one of the most critical times of the lawn growing season. Are you tired of the weeds and want a beautiful lawn without all the worry? This year break the cycle by controlling those pesky weeds before they have a chance to sprout. With our monthly Weed and Feed program, you can sit back, relax and enjoy a healthy and beautiful lawn you've always wanted. We'll take care of the weeds for you and provide your lawn with a customized program that will make your lawn healthy and your neighbors envious.

As a new business, we're offering a special discount for first-time customers and will gladly provide you with a free evaluation to assess your application needs. We would love the opportunity to discuss how we can work together to keep your lawn and landscape in top shape.

Please feel free to contact us by phone or e-mail to schedule your free evaluation or learn more about our services.

Thank you for considering **us** for your Turf & Landscape Application needs. We look forward to the possibility of working with you!

Sincerely,

Billy Lefler
