

gamer? coder? problem-solver?

or just curious how tech actually works?

If you like figuring things out, creating things, or using tech every day, **We Lead CS is where you level up.**

COMPUTER SCIENCE ISN'T JUST FOR "COMPUTER PEOPLE."

Tech skills are now top-five job requirements across every industry – from healthcare and agriculture to finance, manufacturing, and public safety.

Translation:

CS skills = job security + options

WHAT YOU CAN DO WITH WE LEAD CS

You'll build skills for some of the fastest-growing, highest-paying jobs in the country, including:

- Data Scientist – avg. \$112,590/year
- Information Security Analyst – avg. \$124,910/year
- Computer & Information Research Specialist – avg. \$140,810/year

Yeah... those numbers are real.

REAL-WORLD EXPERIENCE (NOT JUST CLASSWORK)

With We Lead CS, you'll:

- Shadow real tech professionals (virtually)
- Learn how people actually got into tech careers
- Build a resume + professional online presence
- Practice interviews with tech employees
- Apply for paid work experience, pre-internships, and virtual summer internships

This is how you stand out.

COLLEGE CREDIT. BEFORE COLLEGE.

Get up to 23 hours of college credit while still in high school.

Credits transfer to any KCTCS college and other universities in Kentucky toward computer science degrees.

Future you will be very thankful.

EXPLORE THE FUTURE (INCLUDING AI 🤖)

Choose from five career pathways plus an Intro to Artificial Intelligence course – making you one of the first high school students in Kentucky to learn what employers expect you to know about AI.

HOW CLASSES WORK

- 100% virtual
- Live instruction every day
- Teachers available for tutoring and support
- Learn at your own pace, but never on your own

And yes — students actually like the teachers. Our students say:

- "My teacher is lowkey cool."
- "Loving learning to code."
- "I'm using code to solve problems."
- "Am developing my own website that's unique to me."
- "The teacher makes it fun."
- "In labs we actually use what we learn."
