To Whom It May Concern,

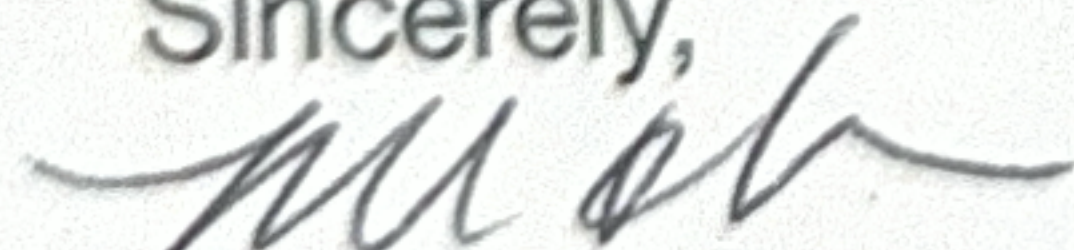

I am writing to wholeheartedly recommend Mr. Foster and his company for any copier services your organization may require. Having been an integral part of our local community since 1976, Roenne's School Inc. prides itself on partnering with professionals who not only excel in their respective fields but also share our dedication to service and community values. Mr. Foster is one such individual, whose unparalleled service and commitment have made a lasting impression on our institution.

Approximately 15 years ago, we were introduced to Mr. Foster through the recommendation of one of our dedicated parents. Given the critical need for a reliable copier in our educational setting, Mr. Foster's approach to customer service, combined with his genuine care and determination to secure the best prices, unequivocally made him our preferred choice. It was due to these compelling qualities that we had no hesitation in engaging his services once again when the need arose.

Throughout our interactions, Mr. Foster has consistently demonstrated an exceptional ability to understand and cater to the unique needs of our preschool. His personal commitment to ensuring satisfaction is evident in every transaction. Despite the busy and often unpredictable schedule that characterizes the running of a Head Start preschool, Mr. Foster has seamlessly taken the initiative, making informed and beneficial decisions on behalf of our school. His hands-on approach and willingness to go above and beyond have significantly alleviated the pressures of managing our copying needs.

We have once again purchased a copier from Mr. Foster, and it is working exceptionally well, further testament to the quality of products and service he consistently provides. Mr. Foster's professionalism, coupled with his caring personality, has not only resulted in cost savings for our school but has also contributed to the smooth operation of our educational programs. The reliability and quality of service provided by his company are truly commendable.

Sincerely,

Christina Onassis Evans  
Chief Executive Officer
