## ***PLASTIC COLLATED STRIP NAILS***

---

Plastic collated nails, also known as plastic strip nails or plastic collated framing nails, are the most economical type of framing nails. The nails are held together with plastic strip or band to prevent deterioration due to weather conditions or high humidity. The collation is angled to accommodate the overlapping heads, in variety of angles. Our plastic collated nails, with smooth, ring or screw shank, are widely used in most wood applications to provide efficient operation and excellent holding power.

### **FEATURES:**

- No sting, no jams, no waste.
- Cost saving and fairly durable.
- Resistant to damage due to water, heat or cold.
- Work well with all standard corresponding framing Nailers.
- Great holding power and resistant to bending.
- Complete styles, gauges and sizes are available
