

TIMBER WINDOWS AND DOORS

Wooden windows offer a range of traditionally styled windows with a selection of operating mechanisms. Those windows not only look beautiful but also make a unique design statement. Vertical sliding **sash window** can be made from hard or soft wood.

Sliding sashes have the quality of tilting inwards which makes maintenance and cleaning easy. They are covered in high quality micro porous paint to improve the look. They come with heavy duty fastenings to make you safe and sound.

UPVC VERTICAL SLIDING SASH WINDOWS

Those types of windows are available in variety of styles, colours and specifications. We want to meet our client's requirements and wishes. Lovely contoured profile and narrow sight lines makes it look very modern.

Vertical sliding windows are the most distinctive and authentic looking **UPVC sash windows** available in UK. PM WINDOWS 4 YOU is using top-of-the-range operating mechanisms, which makes out UPVC windows as good as timber windows.
