

PRIVACY ACT INFORMATION RELEASE STATEMENT
Federal Records to State Database. The proponent agency is TAG-DSO.

I, _____

_____ (Social Security Number)

authorize the South Carolina Military Department and the office of the Adjutant General of South Carolina, on behalf of the State of South Carolina, to access records pertaining to me. Unless noted hereon, or later noted by me, this is an ongoing authority so long as I am a member of the South Carolina National Guard, and will not require an updated signature or date, but my continued membership in the South Carolina Guard shall serve as authority.

Signature: _____

Date: _____

Use of this form is in lieu of DA Form 7433 and is intended for the Release of Information specifically from federal records maintained in a federal database of the SC National Guard, Department of the Army, Department of the Air Force, National Guard Bureau, or Department of Defense, as well as other agencies whose information is maintained with the Adjutant General of South Carolina, as well as other federal records available to the Adjutant General or Military Department of South Carolina. The intent is to allow the federal record maintained to be made available to the State of South Carolina for purposes of supplying the state database with this federal information. It is not for release of federal information to any other source. It is intended to allow the transfer of information of members of the National Guard to maintain updated information in both federal and state databases. By example, but not by limitation, the South Carolina Military Department intends to update its state database so that current pay information regularly updated and maintained in the federal database may be shared with the state database so that in case of state active duty, South Carolina National Guard service members may be paid by direct deposit into accounts identified in the federal database. This is not a release to third parties or to non-governmental entities other than the state of South Carolina.
