CHAPTER BRIEFING

Pre and Post Flight

Madeleine

Dear Chicago 99s,

We had a nice but small gathering at Pilot Petes in November. Always good to meet and eat where airplanes can be viewed right outside the window.

We have gotten some great input and volunteers for Aviation Expo, but really still need more 99s to commit. No one should have to panic wondering if they can leave their post for a few minutes.

We need 2 people to be stationed at a recruiting/information booth for the Ninety-Nines. We have had several members attempt to join in previous years and not been able to—we don't want that to happen again.

We need 2 more people to sit at the entrance and welcome people, hand out programs, and answer questions.

We need 2 speaker aides—to greet and escort our VIPs to their classrooms.

We need 2 check-in people to work just at the beginning of the Friday night dinner

We need at least one more raffle ticket seller.

We need some helpers in the Flying Companion Classroom, especially for the navigation session.

Please contact me via text or email - or tell me at the Holiday Party.

And if you attend EXPO seminars, either IFR or VFR, or bring someone to the seminar, and you talk to our vendors, or you are working for one of our vendors, know how much we will appreciate you just for doing that! You can't have a successful event without attendees!

I wish each and every one of you a wonderful holiday season I am grateful for your friendship and your participation. The work we do together, educating pilots, setting an example for young girls and women, and supporting women who want to fly is still so important.

Please continue (or begin) to be active in the work we do. It is rewarding.

And it is FUN!!!!

Don't just belong,

participate!

Madeleine

Isabella R completed her first solo flight last month. She is now preparing for her final phase check and cross-country solo.

Maya M is diligently preparing for her checkride on December 4th. Good luck, Maya!

Sky R is working towards her checkride, which she hopes to schedule around her 17th birthday on January 13th. With the support of her sister and dad—who are also her CFIs—she successfully soloed in their Cessna 150 on June 16th. Although the Cessna is currently down for its annual inspection, Sky is making good use of the extra time by focusing on ground studies. She hopes the plane will be ready soon so she can get back to flying!

Our best to every member working towards an aviation goal!
