Time your laundry time on your cell alarm to keep up with your laundry time or set up a timer.

Do not leave your laundry in washer or dryer for someone else to empty it out for you. Please be respectful and do not leave your laundry in the washer or dryer for the next member to empty it out for you after your lapse laundry time.

We all would appreciate it if all would clean up after doing your laundry

- **check the laundry washer and dryer for items left behind**
- **clean up dirt particles left behind from doing your wash**
- **clean the lint basket in the dryer**
- **pick up the lint on the floor from the from dryer**
- **sweep up floor the lint balls up after doing laundry**
- **turn off light switches outside the door when finished and lock the door**

We need to work together here to keep our association a respectable place to live in.

Thank you all for your cooperation.
