Business Name/Type: Environmental Contracting & Engineering Co.
Location: Northern California
Status: Active
Asking Price: \$ 355,000
Gross Revenue: \$ Call
Adjusted Net Income: \$ Call
Rent: \$ 700

Unique Environmental Engineering Construction Co.

This is a construction company specializing in above ground fuel tank installations, design, permitting, testing and consulting. With 31 years of contracting in Northern California from Fresno to the Oregon border, there is very limited competition in these areas. All equipment, tools and rolling stock are included. The rolling stock includes a 2014 RAM 3500 service truck, a 2021 Ford F-350 service truck, a 24' 3 axle flatbed trailer rated at 15,000 lbs., a 5000# fork lift, and a 5000 PSI pressure washer. Sales and profits are tracking very well for 2021! Current clients include agriculture, commercial, governmental agencies, oil and fuel jobbers and private enterprises.

Currently they have signed contracts for several hundred thousand dollars of work taking them into 2022. The seller is willing to assist in the transition with training and maintenance of existing clients and future clients. The business can be relocated but is currently in a beautiful area of Northern CA with very low rent, within minutes of national forests, with hiking, fishing, lakes and streams and all outdoor activities. There are great schools in the area; it's a wonderful place to raise a family.

This is a great opportunity for an existing company wanting to expand into Northern California or for a chance for someone in the trades that would like to have their own or expand their business.

Inventory & equipment list available upon request.
