

PREECEPRECISION

300PSI DIGITAL TIRE GAUGE INFLATOR KIT

Designed for accurate RAPID tire inflation systems

SPECIAL PURPOSE DESIGN MAXIMUM SAFE PRESSURE 300PSI for
PREECE PRECISION High Flow Co2 and N2 Regulator Systems

Model Number: **DGH101-A35P**

Digital Gauge

Digital provides the most accurate measurement -
Calibrated to ASME B40.7 Grade A +/-1% of Scale.

Easy To Read

Large 1.5" LCD Display with Amber LED Backlit. Quickly take
pressure reading during the day or low light conditions.

TPMS Ready

Must have for vehicles with TPMS sensors and warning light on
the dash. (Vehicles 2008-up have TPMS warning light).
Will also work on older vehicles without TPMS. Calibrated to
meet or exceed factory OEM TPMS sensor.

SPECIFICATIONS:

Accurate within = +/- 1% (ASME B40.7 Grade A)

Pressure Range = 3-300 psi

Pressure Resolution = 0.1 psi

Four units of Measurement = PSI, BAR,

KPA, KG/CM2

Temperature = 0-100 F

Shut Off = 90 seconds

Power = two (2) AAA Batteries

Included with gauge

Designed for use with
PREECE PRECISION
High Flow Co2/N2 Regulators

Kit contains: Preece digital tire inflator, lock on tire chuck, 45 degree
chuck, truck / dually straight chuck, motorcycle adapter, quick connect
plug, and ptfе sealing tape

Add a set of **AUTO TIRE DEFLATORS:**

TD400 AUTOMATIC TIRE DEFLATORS

Range 5-60PSI

Set to your desired pressure,
DEFLATE automatically!

Model Number:

TD400

Set of Four (4) Tire Deflators

Utilize multiple sets for various desired tire pressures!

Model Number:

DGH101-A35P

Everything pictured included

PREECEPRECISION

COMPLETE RAPID AIR SOURCE SYSTEMS

Consists of everything needed to fill offroad tires FAST!

Complete Co2/N2 Systems

-10/15 lb aluminum tanks

Brushed, Blue and Black Powder Coat

- Non-Freeze Clog Regulators

45CFM and up to 600PSI output

- Accessories

Digital Tire Inflators, Handles,

Brackets, Hoses and Connectors

150PSI - 250PSI - 400PSI - 475PSI - 600PSI...

PREECE supplies the components to assemble your own
RAPID TIRE Co2 and N2 SHOCK CHARGING systems
