

## JUSTICE FOR ALL!

My fellow citizens, I am compelled by my own personal sense of “right vs wrong” and by the beliefs, values and principles which I espouse as a Christian; as a former military officer; as a retired educator/school administrator; as a family man; as a citizen of this community and as an American citizen to ask this question; “IS THERE JUSTICE FOR ALL?”

When justice is not applied to those who violate our laws and/or do not abide by or respect the rule of law, it constitutes an injustice to every law-abiding American citizen. Corruption and criminal conduct in the “Washington Swamp” is very troubling and should no longer be ignored nor allowed to go unpunished. **Fast and Furious; IRS scandal; VA scandal and the Benghazi** attack were all unprincipled and corrupt acts/cover ups for which no one was ever held accountable.

In 2016 it was revealed that Mrs. Clinton had her own unsecured server through which she sent and received classified messages. This was a clear violation of Federal Law! Any other person would have been found guilty as charged and subsequently incarcerated. The results of this so called investigation into the Clinton emails wreaked of a “double standard” in our justice system. If America is a nation of laws, then justice under our laws should be applied equally and not selectively. In this case a crime was committed and went unpunished.

Over the past few weeks information has come to the fore which revealed the existence of massive corruption at the highest level of the DOJ and the FBI. Let’s take a brief review of some of the corruption that needs to be investigated;

1. Opposition party engaged in campaign fund violations.
2. Opposition party refused to turn over their server to the FBI.
3. Opposition party hired and paid a foreign agent through back channels to obtain the infamous Russian Dossier (sound like collusion to me).
4. FBI used the unverified Dossier to obtain a FISA warrant without revealing that it was funded by the opposition party during the 2016 campaign.
5. Former Director of the FBI leaked information in order to get a Special Counsel appointed to jump-start the Russian collusion investigation against President Trump.

If you believe in TRUTH, HONESTY, and INTEGRITY then you MUST NOT defend those who violated our laws and betrayed the trust of the American people solely on the basis of “party politics”, “mob-thought” and “group-think”. I highly encourage you to exercise your freedom and your right to be a free and independent thinker. Never allow any person or radical group to convince you to give up the right for the wrong. Buried amid the chaos, scandals, cover ups and the propaganda lies the truth. Cease to be reactive. Be proactive always seeking the truth. If you seek the truth you WILL find it!

“Right is right even if no one is doing it; wrong is wrong even if everyone is doing it.”
