### Chairman's Pen

We, the people of America, have for over a year and a half witnessed firsthand political and media bias daily. Corruption has become the norm in our nation's Capitol as agencies of our federal government have been weaponized and commissioned to destroy the political opponents of the left as evidenced by the deep-state sponsored "Russian Collusion Investigation" against the Trump campaign. If that's not enough, the mainstream media and the Hollywood elites have teamed up with the left-wing extremists/Trump-haters (all of whom are delusionary sore losers of the 2016 Presidential election) and are now faking outrage over children being separated from their parents on our southern border. Where was this outrage when the previous administration did exactly the same in 2014?

If these extremists love children as they proclaim, why do they support aborting babies and using our tax dollars to do so? Facilities disguised as "women health clinics" take in millions of our tax dollars every year. Yes, these clinics offer a variety of health care services to women, but it has been proven that their primary mission is to destroy the lives of the unborn; to deny unborn babies a chance at LIFE, LIBERTY and the PURSUIT of HAPPINESS! Minority/inner city communities have been targeted for years by abortionists and their supporters. These tax supported clinics also conduct abortions on underage/teenage girls (many of whom were victims of incestuous sexual assaults) but these very clinics often fail to report these cases to child protective services/authorities. WHY? Yet, the left is so heart-broken and outraged over the plight of children at the border.

Hypocrisy and propaganda from left-wing extremists is reaching a very unacceptable and intolerable level. When elected officials incite riotous behavior by encouraging American citizens to attack other American citizens with whom they disagree is not only wrong, but it is UNAMERICAN, DANGEROUS and most of all, TERRORISTIC.

Lastly, where is the outrage for law-abiding Americans of all races whose children were assaulted and even killed by criminals who illegally entered our country? THE LEFT'S SILENCE ON THIS SERIOUS ISSUE IS DEAFENING!!!! It is extremely imperative that we defend our constitutional rights and work untiringly to keep all citizens of our community, state and nation free and safe.

We, The Fayette County Republican Party need you to join us and help us keep America unified and protected. Our mission is to elect candidates at all governmental levels who believe in self-reliance, personal responsibility, lower taxes, smaller government, religious freedom, prosperity and opportunity for all Americans.
