

## **THE ULTIMATE CHALLENGE – Chairman Tyrone K. Jones, Sr**

My fellow Republicans, we are two months away from the midterm elections. Across America candidates vying for elected office will be on the campaign trail competing for votes. It is of utmost importance that we get our Republican candidates elected to office at every governmental level. It is critical that we maintain the majority in the U. S. House of Representatives and the U. S. Senate.

Our Constitution is under attack by left-wing ideologues who are determined to take away your freedoms and your rights if they are elected. Their main goal is to transform America from a Constitutional Republic to a Socialists State where government and non-elected socialist bureaucrats will have complete control of every aspect of your life from cradle to grave. In addition, these radicals on the left advocate against and DO NOT in any way support the following:

1. Protecting our borders
2. Supporting our law enforcement
3. Strengthening our military
4. Promoting economic growth and prosperity for all Americans
5. Expanding our energy independence
6. Life, Liberty and the Pursuit of Happiness

Above are just a few examples of what the left-wing candidates are against. Therefore, it is extremely important that we get our candidates elected in November. We all have a shared-responsibility to help in this effort. This upcoming 2018 midterms is more than a political contest. **THE 2018 MIDTERM ELECTION IN NOVEMBER IS A BATTLE FOR THE FUTURE OF OUR REPUBLIC!**

### **What shall we do about the advancing attack? Answer:**
