

KEEP AMERICA GREAT!

The Democrats in our U.S Senate and House of Representatives have succeeded in their quest to put their brand of politics over principle. Over the past decade senior democratic leaders have meticulously groomed their junior members and devout acolytes to be obedient attack dogs trained to viciously assault those with whom they disagree and dislike. They have also succeeded in taking American politics to an all-time low. Democrats have taken our politics from Patriotism/Bipartisanship to extreme Partisanship; from extreme Partisanship to extreme Tribalism and from extreme Tribalism to what can only now be described as "Extreme Political Cannibalism".

I recently read a commentary written by a democrat whose intent was to convince readers that the democratic party is likened unto a house built on a firm foundation. Oh really? The democratic party is laddened by so much corruption and hypocrisy that the analogy of a firm foundation completely defies reality. **My view is that the democratic party is likened unto a house built on sinking sand and a house built on sinking sand CANNOT and WILL NOT stand!**

Democrats are the expert character assassins and smear merchants. What has happened to truth, justice and fairness in American politics? Under the Obama administration we endured all the scandals from Fast and Furious to the VA to Benghazi to the IRS to the red line in Syria and the spying on the Trump campaign. The main stream media has had Obama's back the whole way for eight years; covering up his weaknesses and failures. But here we have a President, Donald Trump, who has accomplished so much in less than two years to advance our economy, increasing our national security, expanding our energy independence, supporting our law enforcement, our veterans and so much more. Yet, they demean him and ignore his accomplishments. Why? Answer: they are left-wing radicals who are angry because Hillary was defeated in 2016. Her loss opened the door to exposing those who are responsible for the fake Dossier, the phony FISA warrant and the bogus Russian collusion investigation.

The previous administration is frantically trying to conceal its involvement in the plot that protected and exonerated Hillary for her crimes and falsely accused and framed Trump for crimes he in no way committed. The senior leadership in the DOJ and the FBI conspired with the Obama administration to spy on the Trump campaign and to destroy his Presidency if he were elected.

Yes, America is in crisis but not because of President Trump but because of the "Deep State" conspiracy against this duly elected President. Obama needs to stop his charade and admit that he was the mastermind (along with his acolytes') who planned and launched this "Alinsky-style" assault on our democracy. Never in our history has a prior President degraded and demeaned his successor. One only needs to ask why? That answer is simple...they are desperately trying to cover-up their misdeeds and possible criminal conduct.

Democrats do not care about you, the American voter. They care about illegals, open borders and stuffing their pockets with money from special interests and lobbyists. Most of them arrived in Washington as middle-class Americans but are now MILLIONAIRES thanks to those who

keep voting them into office term after term. THE CLINTONS, JOE BIDEN, NANCY PELOSI, MAXINE WATERS, THE OBAMAS, CHUCK SCHUMER are all about the money they have made on the backs of Americans and particularly on the backs of the black and other minority communities.

We, the people have a duty to put a stop to this madness and do one of two things: 1. Convict them of their crimes or 2. Vote them out and send them home to live out the last days of their lives in their MANSIONS surrounded by walls. Mansions they have built with our tax dollars, money pocketed from insider- trading deals, lobbyists and big corporate donors.
