

**THE URGENCY OF NOW:
A MESSAGE TO ALL REGISTERED
REPUBLICAN VOTERS IN FAYETTE COUNTY GEORGIA**

Republicans,

It is absolutely IMPERATIVE that Republican Voters realize that the "RESIST MOVEMENT" IS WORKING OVERTIME TO PUSH THEIR AGENDA THROUGHOUT AMERICA AND MORE CONCERNING IN FAYETTE COUNTY GEORGIA. Who are the people who comprise the resist movement? Well allow me to enlighten you. They are the people who live among us all over this county who are vehemently opposed to President Trump and reject the fact that he was duly elected as the President of our nation. The majority supported Hillary Clinton and the remainder are those who are "Anti-Trumpers" who are NOT registered democrats.

First and foremost, you have to open your eyes and see that the Democrat party you use to know, no longer exists. After more than a century of being segregationists, the Democrats became hardened liberals in the mid-1960s and for the past 6 decades courted Black voters to help them win elections. In previous articles I have exposed the fact that the Democrat party is now under the control of progressive radicals and socialists who are committed to transforming this nation, this state and this county into a far-left dystopia. Lately the operatives of the resist movement are strategically infiltrating our local political party as well as elected offices/posts locally and at the state and federal levels. Their agenda for America includes, but, is not limited to the following:

1. Open borders
2. Late-term abortions (right up to birth) disguised as women's health care.
3. Replacing the Black vote with votes from illegals and undocumented aliens.
4. Raising your taxes to pay for free college, free health care and redistribution of wealth.
5. Intensifying the war on Christianity (since removing God from their platform at their National Convention in 2012).
6. Abolishing I.C.E.; attacking law enforcement and disregarding the Rule of Law.
7. Promoting identity politics in their conquest to divide Americans.
8. Needlessly INVESTIGATING NOT LEGISLATING.

My message is this: "we are in a real fight for freedom and liberty". Their mission is to undermine every American institution. They have already infiltrated our schools (especially universities and colleges), the media, corporations, even nation-wide and local businesses and last, but not least, our government. Their goal is to dominate and control every aspect of your life.

The far-left are defectors not protectors of the U.S. Constitution. They have full control and unfettered access to all the major media outlets who are committed to supporting and pushing their agenda day after day. The left-wing media's content is not news people...it's propaganda.

On February 9th, 2019 the Fayette County Republican Party is convening a Precinct Mass Meeting. If you are a true Republican/Conservative American patriot, GET INVOLVED in this

convention process to do your part to defend our U.S. Constitution and our nation from these deep-state far-left radicals who are determined to take over America...to take over Georgia...to take over Fayette County. It is so important that you show up and represent your precinct/community. Should you ignore this message I assure you that you will regret it in the coming weeks, months and in 2020 and beyond.

The Precinct Mass Meeting affords Republican Voters the opportunity to become Delegates/Alternates to our County Convention which will occur on Saturday, March 9, 2019 as well as an opportunity to take a bold stand against those who are hell-bent on taking away our freedoms.

Republicans MUST STOP sitting on the sidelines. Why? Because the democrat-socialist-progressives are NOT sitting on the sidelines. It grieves me to say this, but I would be remised if I did not: "THEY HAVE DECLARED WAR ON US!!" The ultimate objective of the "RESIST MOVEMENT" is to completely eliminate republicanism, conservatism and constitutionalism in our society.

THIS IS THE TURNING POINT.

THIS IS THE URGENCY OF NOW.
